The Education of d/Deaf and Hard of Hearing Children Peter V. Paul,2020-02-12 A significant number of d Deaf and hard of hearing d Dhh children and adolescents experience challenges in acquiring a functional level of English language and literacy skills in the United States and

elsewhere To provide an understanding of this issue this book explores the theoretical underpinnings and synthesizes major research findings It also covers critical controversial areas such as the use of assistive hearing devices language and literacy assessments and inclusion Although the targeted population is children and adolescents who are d Dhh contributors found it necessary to apply our understanding of the development of English in other populations of struggling readers and writers such as children with language or literacy disabilities and those for whom English is not the home language Collectively this information should assist scholars in conducting further research and enable educators to develop general instructional guidelines and strategies to improve the language and literacy levels of d Dhh students It is clear that there is not a one size fits all concept but rather research and instruction should be differentiated to meet the needs of d Dhh students It is our hope that this book stimulates further theorizing and research and most importantly offers evidence and reason based practices for improving language and literacy abilities of d Dhh students
