Income is the consumption and saving opportunity gained by an entity within a specified timeframe which is generally expressed in monetary terms 1 2 3 For households and individuals income is the sum of all the wages salaries profits interest payments rents and other forms of earnings received in a given period of time 4 also known as gross income Net income is defined as the gross income minus taxes and other deductions e g

mandatory pension contributions and is usually the basis to calculate how much income tax is owed

1 EARNED ACTIVE INCOME

Definition Earned income is money earned from working that requires your time This is the income you receive from actively working You work and you are paid for your work

Examples Salary wages bonuses contract work

Tax implications Earned income is taxed higher than any other income at a rate of 10% 35% plus Medicare Social Security and other taxes which can reach close to 50% based on tax calculators and estimators

Characteristics It's hard to become wealthy solely from earned income for a few reasons First it's taxed at the highest rate and second there are only so many hours in the day for you to work you can work and work and work but if you have to be there to make the money there's a cap on your income because time is limited Another downside besides taxes is that once you stop working the money stops coming in On the upside earned income is the easiest type of income to make You can just go get a job or side job pretty easily in the US and make some money This is why most people make money this way it's easy to do A great way to switch over into better types of income is to use earned income by putting it into a portfolio or to start a side hustle or business this is what I did by starting a blog which is now my full time business

2 PORTFOLIO INCOME

Definition Portfolio income is money you receive from selling an investment for more than what you paid for it portfolio income is also referred to as capital gains

Examples 1 trading assets like stocks bonds and mutual funds 2 buy and selling real estate and 3 buying and selling other assets like a car

Tax implications Portfolio income is taxed at 10% 20% for investments held over 12 months and taxed as earned income if held less than 12 months However portfolio income is not taxed for Medicare or Social Security Capital gains can be offset by losses on other investments which is a huge plus

Characteristics One downside is that for the average person investing can seem intimidating This often keeps people away from doing it It wasn't until I became a Certified Financial Planner that I really understood what was going on with respect to portfolio income If you're just getting started with investing read this post 21 tips for investing in your 30's Also this type of income can take a long time to generate if you believe in many of the widely held investing concepts that require buying and holding for years If you're a trader and attempt to do it much faster you better be really good at it because otherwise it's sort of like gambling You have to have money to invest upfront to create portfolio income This is a huge reason why people say they don't invest You can start with a small amount and contribute to your investments over time but it requires you to have the capital to do it If you want to get started with hiring someone to help you with your money read this post on questions you should ask your financial advisor before hiring her I like using investing as a supplemental income strategy I don't want to retire but I like the idea that I could if I ever change my mind or it became medically necessary So I save and invest as a bit of a safety net but not as the end goal of retiring as soon as possible I like contributing to the world through my work and I also like creating a lot of income I just don't ever tie my hard work or time to income generated This way I know my income potential is unlimited

3 PASSIVE INCOME

Definition Passive income is money generated from assets you own where you are not actively working

Examples Rental

income business income as long as it's not earned based on time and effort creating selling intellectual property e.g. books

Tax implications Passive income receives the most favorable tax treatment

Characteristics Passive income is thought to be the key to building wealth. Once you have an investment that generates recurring income you don't have to do much to maintain it so time is not a limitation. Typically there isn't much start-up cost to passive income that you have to provide yourself. For example you can use your time to create a business or you can get funding from investors for your real estate properties or start up company. It's not as easy as earned income but it's not as challenging as portfolio income in terms of start-up funds. It takes a lot of money to make a lot of portfolio income whereas you can generate a lot of passive income with less.

I started a blog with the idea of generating passive income the Smart Passive Income podcast used to be on repeat. It's one of the best things I ever did.

A FINAL NOTE Understanding how income works is important because it affects how you go about deciding what results you want with money in your future. Do you want to retire? Do you want financial independence early? Do you want to focus on contributing to the world through your work as an entrepreneur? Do you want money just to be a scorecard of the value you provide? Do you believe that hard work and time create money? So many questions. These are philosophical questions but whatever you believe will drive your feelings which will drive your actions which will drive your results. So ultimately your beliefs drive your results you can read more about this in the 5 step framework to master your mindset post here. Based on what you choose to believe you could end up financial independent and retiring very young and living off 4% of your investment portfolio with frugal values while traveling and doing whatever else you want to experience the world while you're alive Or you could end up a multimillionaire focusing on serving the world through your work and never retiring. Completely different results. Both involve a lot of money. What you choose matters. What you believe about money matters. What you do matters. The three different types of income are a way of learning how to use money to your advantage to get the results you want most. This is the way our system works. The sooner you understand how money works the sooner you can make better decisions that will help you achieve financial success whatever that looks like to you.

Boom and Bust Royce Kurlmelovs, 2018-08-28 This is a cautionary tale About greed irresponsibility and failing to learn from the past Australia's mining boom is still talked about with a sense of awe This once in a lifetime event capped off 25 straight years of economic growth Thanks to mining we sidestepped the worst of the Global Financial Crisis To the rest of the world Australia was an economic miracle And then the boom ended Now Australia is grappling with what that means at a time of rising economic inequality and political upheaval The end of the boom isn't about money it's about people Boom and Bust looks at what happens to those who came into vast wealth only to watch it dry up To those who thought they had a good job for life but didn't The bust didn't just happen on stock market screens it was lived and is still being lived right now in dusty towns and cities all around the country As he did in his bestselling book The Death of Holden Royce Kurlmelovs reveals the reality behind the headlines Boom and Bust is a dirt under the nails look at the winners the losers and the impact of the

boom that wasn't meant to end This is a book all Australians should read Brilliant and powerful Nick Xenophon on Royce Kurmelovs THE DEATH OF HOLDEN *Job Scheduling Strategies for Parallel Processing* Dror Feitelson, Larry Rudolph, Uwe Schwiegelshohn, 2005-05-03 This volume contains the papers presented at the 10th Anniversary Workshop on Job Scheduling Strategies for Parallel Processing The workshop was held in New York City on June 13 2004 at Columbia University in conjunction with the SIGMETRICS 2004 conference Although it is a workshop the papers were conference reviewed with the full versions being read and evaluated by at least five and usually seven members of the Program Committee We refer to it as a workshop because of the very fast turnaround time the intimate nature of the actual presentations and the ability of the authors to revise their papers after getting feedback from workshop attendees On the other hand it was actually a conference in that the papers were accepted solely on their merits as decided upon by the Program Committee We would like to thank the Program Committee members Su Hui Chiang Walfredo Cirne Allen Downey Eitan Frachtenberg Wolfgang Gentzsch Allan Gottlieb Moe Jette Richard Lagerstrom Virginia Lo Reagan Moore Bill Nitzberg Mark Squillante and John Towns for an excellent job Thanks are also due to the authors for their submissions presentations and final revisions for this volume Finally we would like to thank the MIT Computer Science and Artificial Intelligence Laboratory CSAIL The Hebrew University and Columbia University for the use of their facilities in the preparation of the workshop and these proceedings **FCC Record** United States.
