Außerdem halten wir jede Menge Tipps für Power User parat **iWar** Tim Higgins, 2025-09-16 The wildly enthralling and entertaining story of Apple's monopolistic impulses and the global business and political forces arrayed against its 3 trillion empire iWar is a saga of corporate intrigue, control and competition featuring some of the world's most brilliant and powerful minds. It is the story of Apple, the tech corporation which has built near-unassailable market power through its iPhone and app ecosystem and controls not only commerce but also culture and increasingly the flow of ideas. And it is the story of a powerful cadre of tech moguls determined to take it down. Over time a loose and disparate group of billionaires, each driven by their own reasons, has formed to challenge Apple's supremacy, including Daniel Ek, Spotify, Tim Sweeney, Epic Games, Fortnite, Mark Zuckerberg, Facebook, Meta and Elon Musk, Twitter, X. With in-depth reporting, Wall Street Journal business columnist Tim Higgins chronicles these tech moguls and their quest to weaken a powerful rival aiming at destroying the Walled Garden around Apple's iPhone Empire while telling a larger story of the global digital and information economy.

Attention Economy - Jahresring #60 Brigitte Oetker, Nicolaus Schafhausen, 2013 The 60th Jahresring takes the form of a compilation of artist interviews and offers a snapshot of a highly active art scene that stretches from Berlin as a new international center for art. Nicolaus Schafhausen put a series of questions to thirty-one art practitioners, less geared toward the artists' respective praxis and more toward the conditions under which it arises. Art's presence in the field of new media has never been more pronounced; access to media images and Internet-based possibilities for research have significantly altered contemporary art production. The art market, too, has changed, gaining influence in the field of contemporary art as even art institutions take a different approach today than they did twenty years ago. The focus in these interviews is on the respective self-positioning by the artists in an era shaped by such far-reaching changes. What emerges are temporally fixed positions within an activity that is for the most part associated with precarious working conditions and the logistics of the market more than ever before. This book offers insight into this other dimension of an artist's existence and registers attention economy as a central component of contemporary art production.
