**The New Routledge Companion to Science Fiction** Mark Bould, Andrew M. Butler, Sherryl Vint, 2024-06-13 The New Routledge Companion to Science Fiction provides an overview of the study of science fiction across multiple academic fields. It offers a new conceptualisation of the field today, marking the significant changes that have taken place in sf studies over the past 15 years. Building on the pioneering research in the first edition, the collection reorganises historical coverage of the genre to emphasise new geographical areas of cultural production and the growing importance of media beyond print. It also updates and expands the range of frameworks that are relevant to the study of science fiction. The periodisation has been reframed to include new chapters focusing on science fiction produced outside the Anglophone context, including South Asian, Latin American, Chinese, and African diasporic science fiction. The contributors use both well-established critical and theoretical approaches and embrace a range of new ones, including biopolitics, climate crisis, critical ethnic studies, disability studies, energy humanities, game studies, medical humanities, new materialisms, and sonic studies. This book is an invaluable resource for students and established scholars seeking to understand the vast range of engagements with science fiction in scholarship today. Chapter 39 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non-Commercial No Derivatives CC BY-NC-ND 4.0 license

**Video Magazine** ,1998 *Macworld* ,1997 *PC AI.* ,2000 〇〇〇〇〇〇 〇〇〇,2014 The solo exhibition Ai Weiwei absent at Taipei

Fine Arts Museum TFAM is the artist's first large scale solo exhibition to be held anywhere in the ethnic Chinese world. The museum presents the exhibition to convey Ai Weiwei's dynamic works of art, his ideas and influential power to audience. Ai Weiwei presents 21 sets of artwork spanning a period from 1980s to 2011 encompassing a variety of forms such as installation and video and using a variety of materials such as ceramics, marble, antique utensils and bicycles. It also includes a series of over 100 photographic works, 75 of which were taken by the artist during his stay in New York between 1983 and 1993 while the other 25 pieces were shot after he moved back Beijing East Village in 1993. The artist's most recent work *Forever Bicycles* created specially for this exhibition is composed of 1,200 bicycles and installed in an exhibition space 10 meters high. Bicycles have long been the most common means of transport in China and as such are both familiar and intimate but Ai Weiwei strips away the functionality of the object. He takes his own sensitivity and preferences and through them expands the idea of using finished objects. The use of 1,200 bikes and the large structure of the work were particular challenges in the construction of the piece. In addition as the bikes are piled layer upon layer on top of each other their wheel axles are transformed to form a labyrinthine like space. Visitors can appreciate and reflect on the aesthetics of the abstract shapes from different angles at the same time feeling first hand the work's great energy and appeal. Date: October 29, 2011 - January 29, 2012.
