The International Space Station Robert C. Dempsey, 2017. Looks at the operations of the International Space Station from the perspective of the Houston flight control team under the leadership of NASA's flight directors who authored the book. The book provides insight into the vast amount of time and energy that these teams devote to the development, planning, and integration of a mission before it is executed. The passion and attention to detail of the flight control team members who are always ready to step up when things do not go well is a hallmark of NASA human spaceflight operations.
