Digital Renaissance Joel Waldfoegel, 2018-11-13 How digital technology is upending the traditional creative industries and why that might be a good thing The digital revolution poses a mortal threat to the major creative industries music publishing television and the movies The ease with which digital files can be copied and distributed has unleashed a wave of piracy with disastrous effects on revenue Cheap easy self publishing is eroding the position of these gatekeepers and guardians of culture Does this revolution herald the collapse of culture as some commentators claim Far from it In Digital Renaissance Joel Waldfoegel argues that digital technology is enabling a new golden age of popular culture a veritable digital renaissance By reducing the costs of production distribution and promotion digital technology is democratizing access to the cultural marketplace More books songs television shows and movies are being produced than ever before Nor does this mean a tidal wave of derivative poorly produced kitsch analyzing decades of production and sales data as well as bestseller and best of lists Waldfoegel finds that the new digital model is just as successful at producing high quality successful work as the old industry model and in many cases more so The vaunted gatekeeper role of the creative industries proves to have been largely mythical The high costs of production have stifled creativity in industries that require ever bigger blockbusters to cover the losses on ever more expensive failures Are we drowning in a tide of cultural silt or living in a golden age for culture The answers in Digital Renaissance may surprise you

Platforms and Cultural Production Thomas Poell, David B. Nieborg, Brooke Erin Duffy, 2021-10-14 The widespread uptake of digital platforms from YouTube and Instagram to Twitch and TikTok is reconfiguring cultural production in profound complex and highly uneven ways Longstanding media industries are experiencing tremendous upheaval while new industrial formations live streaming social media influencing and podcasting among others are evolving at breakneck speed Poell Nieborg and Duffy explore both the processes and the implications of platformization across the cultural industries identifying key changes in markets infrastructures and governance at play in this ongoing transformation as well as pivotal shifts in the practices of labor creativity and democracy The authors foreground three particular industries news gaming and social media creation and also draw upon examples from music

advertising and more Diverse in its geographic scope Platforms and Cultural Production builds on the latest research and accounts from across North America Western Europe Southeast Asia and China to reveal crucial differences and surprising parallels in the trajectories of platformization across the globe Offering a novel conceptual framework grounded in illuminating case studies this book is essential for students scholars policymakers and practitioners seeking to understand how the institutions and practices of cultural production are transforming and what the stakes are for understanding platform power
