Returning to Scientific

Practice Xu Zhu, Wu Tong, 2019-05-17 This book is a result from a collective study on philosophy of scientific practice PSP which began around 2002 and still ongoing There is an apparently increasing interest in scientific practice influenced by the historicistic philosophy of science and the sociology of scientific knowledge SSK Prof WU Tong and his research group believe that it is necessary for PSP to turn from the theory dominant position to the practice dominance PSP has also put forward the possibility of reinterpreting the epistemic status of local knowledge in Chinese tradition which provides the most significant motivation to participate this study In this book we have selected three main cases namely Chinese medicine Fengshui and Ethnobotany to examine the effect of PSP The aim of our collective study is not merely on theoretical construction of PSP but also to consider the various applications of PSP especially for re interpreting and demonstrating the variety of local knowledge from traditional China which seems to be a genuine contribution to the international enterprise of

philosophy of science particularly made by Chinese scholars **The Philosophy Of Scientific Experimentation** Hans Radder, 2003-02-23 The Philosophy of Scientific Experimentation focuses on the identification and clarification of philosophical issues in experimental science Since the late 1980s the neglect of experiment by philosophers and historians of science has been replaced by a keen interest in the subject In this volume a number of prominent philosophers of experiment directly address basic theoretical questions develop existing philosophical accounts and offer novel perspectives on the subject rather than rely exclusively on historical cases of experimental practice Each essay examines one or more of six interconnected themes that run throughout the collection the philosophical implications of actively and intentionally interfering with the material world while conducting experiments issues of interpretation regarding causality the link between science and technology the role of theory in experimentation involving material and causal intervention the impact of modeling and computer simulation on experimentation and the philosophical implications of the design operation and use of scientific instruments **Resources in Education** ,1997 **Systems Analysis and Design** David P.
