An Interdisciplinary Approach to Modern Network Security Sabyasachi Pramanik, Anand Sharma, Surbhi

Bhatia, Dac-Nhuong Le, 2022-05-02 *An Interdisciplinary Approach to Modern Network Security* presents the latest methodologies and trends in detecting and preventing network threats. Investigating the potential of current and emerging security technologies, this publication is an all-inclusive reference source for academicians, researchers, students, professionals, practitioners, network analysts, and technology specialists interested in the simulation and application of computer network protection. It presents theoretical frameworks and the latest research findings in network security technologies while analyzing malicious threats which can compromise network integrity. It discusses the security and optimization of computer networks for use in a variety of disciplines and fields. Touching on such matters as mobile and VPN security, IP spoofing, and intrusion detection, this edited collection emboldens the efforts of researchers, academics, and network administrators working in both the public and private sectors. This edited compilation includes chapters covering topics such as attacks and countermeasures, mobile wireless networking, intrusion detection systems, next generation firewalls, web security, and much more. Information and communication systems are an essential component of our society, forcing us to become dependent on these infrastructures. At the same time, these systems are undergoing a convergence and interconnection process that has its benefits but also raises specific threats to user interests. Citizens and organizations must feel safe when using cyberspace facilities in order to benefit from its advantages. This book is interdisciplinary in the sense that it covers a wide range of topics like network security threats, attacks, tools, and procedures to mitigate the effects of malware and common network attacks, network security architecture, and deep learning methods of intrusion detection. *Industrial Networks and Intelligent Systems* Nguyen-Son Vo, Dac-Binh Ha, Haejoon Jung, 2025-11-20 This book constitutes the refereed proceedings of the 11th EAI International Conference on Industrial Networks and Intelligent Systems INISCOM 2025 held in Da Nang, Vietnam during February 20-21, 2025.
