Starbucks Marie A. Bussing, 2021-11-05 Since its humble beginnings at Seattle's Pike Place Market in 1971 Starbucks has grown to become an industry leader and household name This book takes an in depth look at the evolution of this dynamic and sometimes controversial corporation Americans drink 400 million cups of coffee every day and many of them come from the thousands of Starbucks coffeehouses across the country But how much do you really know about the place you get your morning cup of Joe Part of the Corporations That Changed the World series this book provides readers with a richly detailed history of this famous coffeehouse chain It traces Starbucks meteoric rise from a small Seattle based company to an international powerhouse chronicling how the changing executive leadership affected corporate strategy and direction It also explores how Starbucks has embraced and incorporated new technologies and innovations as well as how the corporation has shaped and been shaped by important social causes An unbiased look at the controversies that have surrounded Starbucks over the years will help readers better understand these contentious issues This updated and expanded edition includes new chapters financial data and coverage of the COVID 19 pandemic's impact on the company Big Tech Must Go! Martin Andree, 2025-02-27 Digital monopolies shape ever larger parts of our lives The platforms are increasingly controlling the public formation of political opinion and at the same time abolishing our free market economy Digital expert Martin Andree shows in detail how far the hostile takeover of our society by the tech giants has already progressed and how we could reclaim the Internet *Popular Music in a Digital Music Economy* Tim J. Anderson, 2013-12-17 In the late 1990s the MP3 became the de facto standard for digital audio files and the networked computer began to claim a significant place in the lives of more and more listeners The dovetailing of these two circumstances is the basis of a new mode of musical production and distribution where new practices emerge This book is not a definitive statement about what the new music industry is Rather it is devoted to what this new industry is becoming by examining these practices as experiments dedicated to negotiating what is replacing an object based industry oriented around the production and exchange of physical recordings In this new economy constant attention is paid to the production and licensing of intellectual property and the rise of the social musician who has been encouraged to become more entrepreneurial Finally every element of the industry now must consider a new type of audience the end user and their productive and distributive capacities around which services and musicians must orient their practices and investments **Remuneration of Copyright Owners** Kung-Chung Liu, Reto M. Hilty, 2017-05-04 This book evaluates existing and explores new mechanisms for the adequate payment of copyright owners for the use of their works The underlying assumption is that adequate rewards to creators and subsequent right holders will continue to be a goal of copyright law particularly to incentivize further creation and investment In the search for viable methods it first focuses on the reduction of transaction costs and the role of new technologies It also discusses the further development and broader application of new mechanisms that might be necessary to enhance the adequacy and efficiency of

payment systems since the more onerous payment systems are the more irrelevant copyright risks become due to lack of acceptance and the less likely both are to fulfill their functions *Global Meets Digital* Vinod Jain, 2023-06-02 The world today is at the intersection of two megatrends Globalization and Digitalization a business revolution unfolding in real time Global Meets Digital captures the many nuances of this revolution succinctly including its impact on our lives and business An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years such as diminishing returns to scale and resource scarcity are no longer valid for a large and growing number of products and services The book will challenge you to think differently not just about digital products but also about physical products In the global digital world products are of three kinds physical digital and smart machines products that are both physical and digital and connected to the internet a distinction missed by most books on strategy and global business The economics of each kind of products is distinct from that of the others which has strategic implications for all kinds of businesses implications such as how to compete and how to create and capture value With several mini case studies and over 100 company examples the book covers themes and cutting edge issues like the paradox of globalization digital disruption disruptive business models exponential technologies Internet of Things competition in digital markets winner take all market dynamics Industry 4.0 how to innovate strategizing for the New Normal and value creation and value capture in both B2C and B2B contexts The book derives its underpinnings from the practice of global and digital business while theory remains in the background Intended specifically for an executive professional audience Global Meets Digital should also be of value to business students and professors learning to dip their toes into a digital world Vinod Jain is an expert in global and digital strategy award winning professor Fulbright Scholar and author of an MBA textbook Global Strategy He taught at the Rutgers Business School Newark and New Brunswick and the Robert H Smith School of Business University of Maryland College Park At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School's Executive MBA program in China Since leaving Maryland he has taught in China Denmark Finland Poland and India as a visiting or term professor His opinion pieces have appeared in The Washington Post The Baltimore Sun Mensa Bulletin and Economic Times and Mint India's 1 and 2 business dailies among other media In the past he worked as a middle and senior level executive with American and British multinationals Vinod has a PhD in Strategy and International Business from the University of Maryland College Park MS in Management from UCLA and MS and BS Hons in Statistics from the Indian Statistical Institute Calcutta *Der Einfluss von Streamingdiensten auf die Musikindustrie* Jenny Karpe, 2022-09-01 Bachelorarbeit aus dem Jahr 2019 im Fachbereich Musik Sonstiges Note 1.0 Hochschule Ostwestfalen Lippe Medienproduktion Sprache Deutsch Abstract Welchen Einfluss hat Streaming auf die Umsätze der Musikindustrie Wie kann auch in Zukunft sichergestellt werden dass Künstlerinnen Geld mit ihren Werken verdienen Welche neuen Möglichkeiten gibt es aufgrund der sofortigen globalen Verfügbarkeit von Musik durch
