Centering Humanism in STEM Education Bryan Dewsbury,Susannah McGowan,Sheila S. Jaswal ,Desiree Forsythe,2024-09-24 Research demonstrates that STEM disciplines perpetuate a history of exclusion particularly for students with marginalized identities This poses problems particularly when science permeates every aspect of contemporary American life Institutions repeated failures to disrupt systemic oppression in STEM has led to a mostly white cisgender and male scientific workforce replete with implicit and or explicit biases Education holds one pathway to disrupt systemic linkages of STEM oppression from society to the classroom Maintaining views on science as inherently objective isolates it from the world in which it is performed STEM education must move beyond the transactional approaches to transformative environments manifesting respect for students social and educational capital We must create a STEM environment in which students with marginalized identities feel respected listened to and valued We must assist students in understanding how their positionality privilege and power both historically and currently impacts their meaning making and understanding of STEM

America's Frozen Neighborhoods Robert C. Ellickson,2022-01-01 This book examines local zoning policies and suggests reforms that states and the federal government might adopt to counter the negative effects of exclusionary zoning A tale well told by Robert Ellickson It s a valuable contribution to the growing movement against NIMBYism Peter Coy New York Times In this book Robert Ellickson asserts that local zoning policies are the most consequential regulatory program in the United

States Many localities have created barriers to the development of less costly forms of housing Numerous economists have found that current zoning practices inflict major damage on the national economy Using Silicon Valley the Greater New Haven Connecticut area and the northwestern portion of Greater Austin Texas as case studies Ellickson shows in unprecedented detail how the zoning system works and recommends steps for its reform Zoning regulations Ellickson demonstrates are hard to dislodge once localities have enacted them He develops metrics to measure the existence and costs of exclusionary zoning and suggests reforms that states and the federal government could undertake to counter the detrimental effects of local policies These include the cartelization of housing markets and the aggravation of racial and class segregation
