Poker, **Class at Bat, Gender on Deck and Race in the Hole** Ron Briley, 2003-06-18 Nineteen essays by Briley focus on major league baseball as it reflected the changing American culture from about 1945 to about 1980 He examines the era through the lens of race gender and class categories which have increasingly become essential analytical tools for scholars The accounts of Roman Mejias and Cesar Cenedo offer some disturbing insights regarding the acceptance of Latinos in baseball and American society In one essay Briley refers to baseball as the heart of the nation's democratic spirit noting that the son of a rural farmer could play alongside a governor's son and both would receive only the praise that their playing merited However in writing about the Milwaukee Braves move to Atlanta the lamentations of fans that baseball had succumbed to the age of affluence are compared to the changing patterns of demographics and economic power in American society Even with the increased participation of women on the field with teams like the Silver Bullets the final essay comments on organized baseball's

perception of them as primarily spectators Instructors considering this book for use in a course may request an examination copy here

Making News Richard R. John, Jonathan Silberstein-Loeb, 2015-09-24 How can the news business be reenvisioned in a rapidly changing world Can market incentives and technological imperatives provide a way forward How important have been the institutional arrangements that protected the production and distribution of news in the past Making News charts the institutional arrangements that news providers in Britain and America have relied on since the late seventeenth century to facilitate the production and distribution of news It is organized around eight original essays each written by a distinguished specialist and each explicitly comparative Seven chapters survey the shifting institutional arrangements that facilitated the production and distribution of news in Britain and America in the period between 1688 and 1995 An eighth chapter surveys the news business following the commercialization of the Internet while the epilogue links past present and future Its theme is the indispensability in both Great Britain and the United States of non market institutional arrangements in the provisioning of news Only rarely has advertising revenue and direct sales covered costs Almost never has the demand for news generated the revenue necessary for its supply The presumption that the news business can flourish in a marketplace of ideas has long been a civic ideal In practice however the emergence of a genuinely competitive marketplace for the production and distribution of news has limited the resources for high quality news reporting For the production of high quality journalism is a byproduct less of the market than of its supersession And in particular it has long depended on the acquiescence of lawmakers in market limiting business strategies that have transformed journalism in the past and that will in all likelihood transform it once again in the future *Federal Register*, 1973
