Recalibrating teacher training in African higher education institutions Sifiso Sibanda,Gideon (Deon) P. van Tonder,Washington T. Dudu,2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research intensive institutions of higher learning This has far reaching implications for the education of underprivileged citizens and education particularly modes and modalities of delivery has to be reimaged to subvert the challenges wrought by the pandemic This book significantly bridges the gap between the pre and post COVID 19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark

Clinehens, 2022-03-20 No matter

your field of expertise every day you're presented with seemingly impossible challenges. Issues that you or your company can't seem to crack even after weeks, months, or years of trying. How do you approach these impossible challenges? Do you have a strategy that you follow or do you just hold a brainstorming session and hope for the best? Do you tell yourself "Think harder and pray inspiration will strike"? There's a better way to solve problems like these: improve the quality of your thinking. Better thinking, problem solving, and reasoning are skills. They can be developed through self-examination, learning new frameworks, and expanding our mental models. Lucky for us, brilliant thinkers, creators, entrepreneurs, and philosophers, people like Elon Musk, Aristotle, Charlie Munger, Isaac Newton, Ada Lovelace, Albert Einstein, Frederick Douglass, Maya Angelou, and Henry Ford have left behind documentation, frameworks, and tools for considering impossible problems. In *How to Solve Impossible Problems*, author Jennifer L. Clinehens' *Choice Hacking CX* That Sings presents 7 such tools to improve our thinking and help us solve what feel like insurmountable challenges. In each chapter, she gives specific, actionable advice, real-world examples, and in a free companion course available February 15, 2022, provides worksheets to help apply each principle.
