Netflixed Gina Keating, 2012-10-11 Netflix has come a long way since 1997 when two Silicon Valley entrepreneurs Marc Randolph and Reed Hastings decided to start an online DVD store before most people owned a DVD player They were surprised and elated when launch day traffic in April 1998 crashed their server and resulted in 150 sales Today Netflix has more than 25 million subscribers and annual revenues above 3 billion Yet long term success or even survival is still far from guaranteed Journalist Gina Keating recounts the absorbing fast paced drama of the company's turbulent rise to the top and its attempt to invent two new kinds of business First it engaged in a grueling war against video store behemoth Blockbuster transforming movie rental forever Then it jumped into an even bigger battle for online video streaming against Google Hulu Amazon and the big cable companies Netflix ushered in such innovations as DVD rental by mail a patented online queue of upcoming rentals and a recommendation algorithm called Cinematch that proved crucial in its struggle against bigger rivals Yet for all its success Netflix is still a polarizing company Hastings is often heralded as a visionary he was named Business Person of the Year in 2010 by Fortune even as he has been called the nation's worst CEO Netflix also faces disgruntled customers after price increases and other stumbles that could tarnish the brand forever The quest to become the world's portal for premium video on demand will determine nothing less than the future of entertainment and the Internet Drawing on extensive new interviews and her years covering Netflix as a financial and entertainment reporter Keating makes this tale as absorbing as it is important

The Korean Wave in a Post-Pandemic World Geon-Cheol Shin, Mark D. Whitaker, 2023-11-02 This book presents an analysis of how the economic Korean Miracle spread into the cultural Korean Wave Hallyu First only in Asian countries and then around the world the rising popularity of the Korean Wave continued within the pandemic despite or even because of policies of digital lockdowns Partially this has been by design as Korea for decades has had a very strong fast development drive in telecommunications and that aided the growth of its cultural wave Partially however this became exclusively by default how the Korean Wave had to spread increasingly in a digital manner after 2020 globally in response to many countries' rules regarding the COVID 19 pandemic in their attempts to enforce a decline in face to face content consumption In retrospect this has meant only more digital growth and innovation for the Korean Wave in past years compared to other cultures' entertainment complexes that suffered more Korea's earlier digital readiness combined with later lockdown conditions and pushed the Korean Wave further ahead Despite the ending of COVID 19 lockdowns in many countries a greater digital aftermath will continue in the cultural industry and in the economy in general This is due to changes created in cultural preferences in organizational investments and in communication technologies due to those lockdowns Thus the authors examine how the Korean Wave coped actively with a pronounced digital shift by default in all aspects of media including production distribution and consumption In turn they examine how the greater digital shift in the world's culture and economy influenced the Korean Wave's entertainment performances TV dramas and cosmetics among other areas The authors analyze general trends in the Korean Wave's economics culture and technology along with specific strong cases of the K pop boy group BTS the cosmetics manufacturer Cosmax and the television series Squid Game Since the Korean Wave continues to grow in popularity within a more exclusive digital socialization future implications of such a competitive digital world economy and multi polar digital world culture are discussed for all countries as well
