Development and Education Teresa M. McDevitt, Jeanne Ellis Ormrod, Glenn Cupit, Margaret Chandler, Valarie Aloa, 2012-08-21 Child Development and Education is a comprehensive child development text written especially for educators. It helps students to translate developmental theories into practical implications for teaching and caring for youngsters with diverse backgrounds, characteristics, and needs. The text draws from innumerable theoretical concepts, research studies conducted around the world, and the authors' own experiences as parents, teachers, psychologists, and researchers to identify strategies for promoting young people's physical, cognitive, and social/emotional growth. In this Australian edition, contemporary Australian and New Zealand research has been highlighted, and local educational structures, philosophies, and controversies have been reflected.

Psychology of Gender/Sex Vicki S. Helgeson, Krystle M. Balhan, Erin Winterrowd, 2025-05-30 Now in its 7th edition, Psychology of Gender Sex reviews the research and issues surrounding gender from multiple perspectives, including psychology, sociology, anthropology, and public health. It explores the ways in which gendered experiences are varied across development, social identities, and locations, focusing on the construct of gender sex, as well as the implications of gender sex for school, work, relationships, and health. Going far beyond discussions of biological sex and gender identity, the text explores the gender sex roles that society assigns to people, the various ways in which people break and bend those roles, and the other variables that co-occur with gender sex, such as status and power. Key features of this edition include: Updated and integrated coverage of LGBTQ issues, identities, and experiences; Expanded emphasis on the intersectionality of gender sex; Renewed focus on abortion, bodily autonomy, and reproduction; Expanded discussions of emerging topics such as online interactions and social media, the impact of COVID on gender sex inequalities, gender sex in the workplace, and social justice and activism; Engaging and readable. Psychology of Gender Sex is an essential text for all students of gender from psychology, women's studies, gender studies, sociology, and anthropology.

Family Men: Fathers as Coparents in Diverse Contexts and Family Structures, volume II Sarah E. DeMartini, Martin I. Gallegos, Lauren Altenburger, Nicola Carone, 2024-12-12 Significant contextual changes over the past few decades have suggested that mother-focused models of science do not accurately capture fathers' involvement as caregivers and coparents. Extant research, such as the study from Cabrera and their team in 2018, has debunked myths that paint fathers solely as secondary caregivers, hands-off parents, and absent fathers. On the contrary, recent studies have suggested that fathers exert significant direct and indirect influences on child development and partner relationship quality via coparenting, how parents work with or against each other to care for their children, e.g., the studies from Farr Kuo and their team in 2017, McHale and their team in 2019, Murphy and their team in 2017, and Schoppe-Sullivan-Fagan in 2020. According to McHale and their team's research in 2019, coparenting has been of interest to family systems researchers, clinicians, as well as intervention and preventionists due to this construct capturing whole family dynamics. While much of coparenting literature has focused on gender differences in

the roles and involvement of opposite sex coparents such as the research from Carone Lingardi in 2022 However we know less about coparenting in alternative family structures particularly gay father coparents as mothers are heavily emphasized in extant literature One Parent Families Jennie Popay, Lesley Rimmer, Chris Rossiter, 1983 Study of one parent families in the UK examines social implications and economic legislation social change in attitudes towards solo fathers and mothers and relevant financial policy housing policy and incomes policy issues considers divorce maintenance payments children custody etc Bibliography and statistical tables **The Family in Global Perspective** Elaine J.
