Once In Kazakhstan Once In Kazakhstan:

Once in Kazakhstan Keith Rosten, 2005 Rosten uses his knowledge of Russian living and language to give the reader access to non English sources on the history politics traditions and spirit of Kazakhstan The book contains photographs of the people places and monuments of the country [After January: Kazakhstan's Journey Through Identity and Geopolitics](#) Nygmet Ibadildin, Dinara Pisareva, Nurmakhan Tastaibek, 2025-09-30 This book explores how Kazakhstan has navigated its identity and geopolitical relationships since the January 2022 protests and the Russian Ukrainian crisis What began as a study of Soviet legacy in Kazakhstan shifted focus when major events in 2022 altered the country s internal politics and regional standing We trace Kazakhstan s complex history with Russia from the incorporation of Kazakh nomadic territories into the Russian Empire through the Soviet era to today s complex relationship The Soviet policies of collectivization and sedentarization dramatically transformed traditional Kazakh society with devastating consequences like the Asharshylyk famine that continue to shape national memory and identity The book examines Kazakhstan s development under Presidents Nazarbayev and Tokayev looking at how their social contract prioritized economic growth and stability over political freedoms We provide a detailed look at the January 2022 protests their aftermath and Tokayev s subsequent reform agenda aimed at political modernization In the shadow of the Russian Ukrainian crisis we show how Kazakhstan walks a diplomatic tightrope maintaining necessary ties with Russia while avoiding Western sanctions and developing new partnerships especially with Turkic states Using postcolonial theory we analyze how historical power dynamics continue to influence Kazakhstan s search for identity and place in the world Through five chapters we offer readers a window into Kazakhstan s evolving sense of self its changing relationships with global powers and the potential for Pan Turkism to provide a complementary alliance to Russian dominated regional frameworks *The Cinema of Soviet Kazakhstan 1925-1991* Peter Rollberg, 2021-02-12 This monograph traces the history of Kazakh filmmaking from its conception as a Soviet cultural construction project to its peak as fully fledged national cinema to its eventual re imagining as an art house phenomenon The author s analysis places leading directors Shaken Aimanov Abdulla Karsakbaev Sultan Akhmet Khodzhikov Mazhit Begalin in their sociopolitical and cultural context *Kazakhstan* Martha Brill Olcott, 2010-09 At the outset of independence 18 years ago Kazakhstan s leaders promised that the country s rich natural resources with oil and gas reserves among the largest in the world would soon bring economic prosperity It appeared that democracy was beginning to take hold in this newly independent state Nearly two decades later Kazakhstan has achieved the World Bank s ranking of a middle economic country but its economy is straining from the global economic crisis The country s political system still needs fundamental reform before Kazakhstan can be considered a democracy *Kazakhstan Unfulfilled Promise* examines the development of this ethnically diverse and strategically vital nation which seeks to play an influential role on the international stage Praise for the previous edition of *Kazakhstan* This detailed but accessible work will be the definitive work on the newly independent state of

Kazakhstan Choice Olcott knows more about Kazakhstan than anyone else in the West New York Review of Books Not only shares the lucid insights and depth of a seasoned observer it greatly enriches the literature on post Soviet transitions Foreign Affairs **George W. Bush** George Walker Bush,19?? *Public Papers of the Presidents of the United States* United States. President,2010 Containing the public messages speeches and statements of the President 1956 1992 **Central Asia and the New Global Economy** Boris Z. Rumer,2019-07-23 Central Asia s new states have been buffeted by financial ill winds from East Asia and Russia and by Islamic revolutionary movements from the south In the context of widespread and deepening impoverishment endemic corruption gaping inequalities and external pressures to undertake difficult reforms economic crisis threatens to expand into profoundly destabilizing social and political crises as well This volume analyzes the geopolitical and macroeconomic situation of Central Asia local policy responses to the current crisis and alternative scenarios for the foreseeable future It devotes particular attention to Kazakhstan Turkmenistan and Uzbekistan Beyond the immediate case the book focuses on policy measures and institutional improvements that could most directly impact the capacity of economies in the region to adapt to the globalization process **Political Construction Sites** Pal Kolsto,2018-02-19 The dissolution of the Soviet Union has provided scholars with tremendously rich material for the study of comparative nation building Not since the decolonization of Africa in the 1960s have so many new states been established in one stroke in one region The post Soviet states moreover have all the necessary prerequisites for fruitful comparison a number of similarities but also significant differences in terms of size culture and recent history In order to survive in the long run modern states normally must have a population that possesses some sense of unity Its citizens must adhere to some common values and common allegiance towards the same state institutions and symbols This does not mean that all inhabitants must necessarily share the same culture but they should at least regard themselves as members of the same nation Strategies to foster this kind of common nationhood in a population are usually referred to as nation building After a decade of post Soviet nation building certain patterns are emerging and not always the most obvious ones Some states seem to manage well against high odds while others appear to be disintegrating or sinking slowly into oblivion To a remarkable degree the former Soviet republics have chosen different models for their nation building This book examines the preconditions for these endeavors the goals the state leaders are aiming at and the means they employ to reach them *Oil* Xiaobing Li,Michael Molina,2014-10-14 Despite ongoing efforts to find alternatives oil is still one of the most critical and valuable commodities on earth This two volume set provides extensive background information on key topics relating to oil profiles countries that are major producers and consumers of oil and examines relevant political issues Aside from air and water oil is perhaps the most valuable natural resource Oil supplies the tremendous energy needs of the modern world What exactly is oil where does it come from how does it get consumed and who is using it This encyclopedia provides clear answers to these questions and more offering students entries on the fundamentals of the oil industry and profiles of the countries that play a major role in

oil production and consumption Volume 1 presents topical entries on critical concepts key terms major oil spills and disasters and important organizations and individuals relating to the oil industry Entries define terms such as barrel and reserve cover incidents such as the BP oil spill and explain the significance of organizations such as OPEC The second volume spotlights specific countries that are major producers consumers exporters and importers of oil from the United States to Russia to Saudi Arabia to Venezuela Each profile shows readers the importance of oil in that country through a brief background history data on its oil usage or production information about major trading partners and an explanation of political issues

Russian Imperialism Revisited Domitilla Sagramoso, 2020-03-05 This book examines the nature of Russia's relations with the former Soviet states FSS in particular with countries which formed the Commonwealth of Independent States in order to assess whether there has been a resurgence of Russian imperialism since the collapse of the USSR The book sets out to determine whether Russian leaders have attempted to restore a sphere of influence over the former Soviet republics or whether Russia's policies reflect a genuine desire to establish normal state to state relations with the new states It adopts a comprehensive approach analysing Russia's policies towards the FSS across a broad range of areas energy trade and investment military assistance security provision and peacekeeping conflict management political support and alliance formation While not denying the Kremlin's assertive role in the FSS this book challenges the assumption that Russia has always intended to restore a sphere of influence over its Near Abroad Rather it argues that Russia's policies are much more complex multi faceted and often more incoherent than is often assumed In essence Russia's actions generally reflect a combination of legitimate state interests enduring Soviet legacies and genuine concerns over events unfolding along Russia's borders This book also shows that at times Great Power nostalgia and a real difficulty with discarding Russia's imperial legacy shapes Russia's behaviour towards the FSS This book will be of great interest to students of Russian politics and foreign policy east European politics and International Relations in general

have films shaped our understanding of the creation the imagining of Central Asian nations Here Rico Isaacs uses cinema as an analytical lens to explore how the Kazakh national identity has been constructed and contested Drawing on an analysis of Kazakh films from the last century and featuring new interviews with directors and critics involved in the Central Asian film industry his book traces the construction of nationalism within Kazakh cinema from the country's inception as a Soviet Republic to a modern independent nation Isaacs identifies four narratives since the collapse of the Soviet Union a warrior like ethnic narrative rooted in the 18th Century struggles against the Mongolian Oirat tribes a civic inspired narrative cemented in the Stalinist deportations of the 1930s and 40s a religious narrative founded within the mystic and philosophical religion of Tengrism and the cult of the Sky God and a socio economic narrative which roots Kazakh nationhood and identity in contemporary social divisions the lived day to day experiences of ordinary citizens and the struggles they face with authority These last two tropes demonstrate how cinema has emerged as a site of dissent against the country's authoritarian regime under President Nazarbayev *Film and Identity in Kazakhstan* advances our understanding of Kazakhstan and nationalism by demonstrating the multiple and inessential character of each and illustrates the important role of cinema in contesting political power in the post Soviet space

Dictators Without Borders Alexander A. Cooley, John Heathershaw, 2017-02-07 A penetrating look into the unrecognized and unregulated links between autocratic regimes in Central Asia and centers of power and wealth throughout the West Weak corrupt and politically unstable the former Soviet republics of Kazakhstan Kyrgyzstan Tajikistan and Uzbekistan are dismissed as isolated and irrelevant to the outside world

But are they This hard hitting book argues that Central Asia is in reality a globalization leader with extensive involvement in economics politics and security dynamics beyond its borders Yet Central Asia s international activities are mostly hidden from view with disturbing implications for world security Based on years of research and involvement in the region Alexander Cooley and John Heathershaw reveal how business networks elite bank accounts overseas courts third party brokers and Western lawyers connect Central Asia s supposedly isolated leaders with global power centers The authors also uncover widespread Western participation in money laundering bribery foreign lobbying by autocratic governments and the exploiting of legal loopholes within Central Asia Riveting and important this book exposes the global connections of a troubled region that must no longer be ignored
