The Publishers' and Stationers' Weekly Trade Circular ,1872 *Caribbean Anti-Trafficking Law and Practice* Jason Haynes, 2019-07-11 This monograph investigates the International European and Commonwealth Caribbean approaches to human trafficking from an Analytical Eclectic perspective It presents a compelling empirically based argument that although there is currently a panoply of measures aimed at preventing human trafficking prosecuting offenders and protecting trafficked victims in both Europe and the Commonwealth Caribbean these measures have in practice been fraught with a number of challenges whether of a normative institutional or individual nature The continued existence of these challenges strongly suggests that there exists a disconnect between anti trafficking law and practice which is not peculiar to small island developing States since they also extend to developed States including the United Kingdom Although these challenges are not insurmountable this monograph advances the argument that sustained social economic political and legal commitments are both necessary and desirable and that without such commitments only pyrrhic victories would be won in the fight to eradicate the scourge of the twenty first century Given the importance of the

issue of human trafficking and its inescapable impact on victims families communities nations regions and the international community as a whole this monograph will serve as an important resource for policy makers scholars students and practitioners actively working in this increasingly dynamic area of law

Executive Clemency Daniel Pascoe, Andrew Novak, 2020-07-30 Nearly every country in the world has a mechanism for executive clemency which though residual in most legal systems serves as a vital due process safeguard and as an outlet for leniency in punishment While the origins of clemency lie in the historical prerogative powers of once absolute rulers modern clemency laws and practices have evolved to be enormously varied This volume brings comparative and empirical analysis to bear on executive clemency building a sociological and political context around systematically collected data on clemency laws grants and decision making Some jurisdictions have elaborate constitutional and legal structures for pardoning or commuting a sentence while virtually never doing so while others have little formal process and yet grant clemency frequently Using examples from Asia Europe Latin America the Caribbean and the USA this comparative analysis of the law and the practice of clemency sheds light on a frequently misunderstood executive power This book builds on existing academic scholarship and expands the limited geographical scope of prior research which has tended to focus on North America the UK and Australia It relays the latest state of knowledge on the topic and employs case studies doctrinal legal analysis historical research and statements by clemency decision making authorities in explaining why clemency varies so considerably across global legal and political systems In addition it includes contributions encompassing international law transitional justice and innocence and wrongful convictions as well as on jurisdictions that are historically under researched The book will be of value to practitioners academics and students interested in the fields of human rights criminal law comparative criminal justice and international relations

Regulation of Debt Collection in Europe Cătălin Gabriel Stănescu, 2022-11-25 Due to the absence of due process and other procedural guarantees generally offered by judicial enforcement informal debt collection practices IDCs can become abusive harming both consumers and the economy by threatening consumers physical psychological and economic wellbeing exposing lawabiding debt collectors to unfair competition undermining the financial system and negatively impacting social peace by resorting to criminal activity The need to control and harmonize IDCs surfaced in connection with the European Commission s Action Plan to tackle the high level of non performing loans caused

by the financial crisis and the Covid 19 pandemic specifically the Proposal for a Directive on Credit Servicers Credit Purchasers and the Recovery of Collateral CSD Harmonizing the regulation of abusive IDCs is vital for several reasons First IDCs have a cross border dimension due to the freedom of movement enabling debt collection operations across the internal market Second the internal market s size amounts to over 450 million citizens potentially exposed to abusive IDCs The regulatory frameworks addressing IDCs in the E U display divergent characteristics that may be difficult to navigate and require creating a level playing field for consumers and debt collectors especially when approaches vary at Member State level This book addresses this gap by providing a comprehensive guide to regulating informal debt collection practices in eight Member States of the E U and the United Kingdom U K It serves as a comparative law instrument for implementing the recently adopted CSD It will be important reading for students academics and stakeholders with an interest in debt collection practices and the law
