One Child Have Right More:

One Child Sarah Conly, 2016 The problem The right to a family The right to control your body Sanctions The future Unexpected consequences When **One Child** Mei Fong, 2015-11-03 A Pulitzer Prize winning journalist offers an intimate investigation of China's one child policy and its consequences for families and the nation at large For over three decades China exercised unprecedented control over the reproductive habits of its billion citizens Now with its economy faltering just as it seemed poised to become the largest in the world the Chinese government has brought an end to its one child policy It may once have seemed a shortcut to riches but it has had a profound effect on society in modern China Combining personal portraits of families affected by the policy with a nuanced account of China's descent towards economic and societal turmoil Mei Fong reveals the true cost of this controversial policy Drawing on eight years of research Fong reveals a dystopian legacy of second children refused documentation by the state only children supporting their parents and grandparents and villages filled with ineligible bachelors A vivid and thoroughly researched piece of on the ground journalism *One Child* humanizes the policy that defined China and warns that the ill effects of its legacy will be felt across the globe The Guardian UK *Transcultural Bodies* Ylva Hernlund, Bettina Shell-Duncan, 2007-06-07 Female circumcision or more precisely female genital cutting FGC remains an important cultural practice in many African countries often serving as a coming of age ritual It is also a practice that has generated international dispute and continues to be at the center of debates over women's rights the limits of cultural pluralism the balance of power between local cultures international human rights and feminist activism In our increasingly globalized world these practices have also begun immigrating to other nations where transnational complexities vex debates about how to resolve the issue Bringing together thirteen essays *Transcultural Bodies* provides an ethnographically rich exploration of FGC among African diasporas in the United Kingdom Europe and Australia Contributors analyze changes in ideologies of gender and sexuality in immigrant communities the frequent marginalization of African women's voices in debates over FGC and controversies over legislation restricting the practice in immigrant populations

Children's Rights Ursula Kilkelly, 2017-07-05 The articles in this volume shed light on some of the major tensions in the field of children's rights such as the ways in which children's best interests and respect for their autonomy can be reconciled challenges such as how the CRC can be made a reality in the lives of children in the face of ignorance apathy or outright opposition and critiques whether children's rights are a Western imposition or a successful global consensus Along the way the writing covers a myriad of issues encompassing the opposition to the CRC in the US gay parenting Dr Seuss's take on children's autonomy the voice of neonates on their health care the role of NGO in supporting child labourers in India and young people in detention and more **Neuropsychology of Childhood Epilepsy** Isabelle Jambaqué, Maryse Lassonde, Olivier Dulac, 2006-04-11 This book is devoted to the neuropsychological description of childhood epilepsy a neurological condition that constitutes one of the most prevalent forms of chronic and disabling childhood illnesses Indeed one

child out of 20 experiences one or more seizures before the age of 5 and one in a hundred develops epilepsy as a chronic disorder. Approximately half of these children with epilepsy display academic difficulties and/or behavioral disorders. Moreover, it is now believed that a sizable proportion of children with learning disability suffer from undiagnosed epilepsy. While a great number of textbooks have been devoted to various medical aspects of childhood epilepsy (diagnosis, genetics, etiology, drug and surgical treatment, etc.), there have been no comprehensive accounts of the cognitive consequences of this condition. Advance of medical knowledge has shown that childhood epilepsy should not be considered as a single disorder but encompasses a whole range of different conditions that exhibit specific clinical EEG and outcome characteristics. It is not becoming apparent that these various clinical entities have different cognitive expression that yet need to be specified. The purpose of this book is to provide a complete up-to-date analysis of this multi-faceted pathology.

Children's Rights John Wall, 2016-10-18. This accessible and authoritative book provides the first systematic overview of the global children's rights movement. It introduces both beginners and experts to child and youth rights in all their theoretical, historical, cultural, political, and practical complexity. In the process, the book examines key controversies about globalization, cultural relativism, social justice, power, economics, politics, freedom, ageism, and more. Combining vivid examples with cutting-edge scholarship, *Children's Rights Today's Global Challenge* lifts up the rights of the youngest third of humanity as the major human rights challenge of the twenty-first century.

Human Rights in this Age of Uncertainty Vjollca Krasniqi, Jane McPherson, 2022-11-05. This book grounded in a human rights framework takes a close look at social work approaches and practices in Southeast Europe. Human rights are central in today's understanding of social work as an academic discipline and as a professional practice. Looking at social work through a human rights lens unmasks inequality and discrimination, promotes ethical engagements, and contributes to the social, political, and economic betterment of society. Moreover, human rights and social work are interdependent and have far-reaching implications at macro, mezzo, and micro levels both in the realm of social policy and in professional practice. This collection of eight chapters provides an overview of human rights practices in social work in Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Kosovo, Romania, and Slovenia. It presents state-of-the-art research on human rights and social work through individual country-focused chapters. In addition, it includes an integrative introductory chapter that identifies and discusses the commonalities and differences across the region as well as future directions. The book takes an integrated approach with conversations among the contributors on three main questions: What is the state of human rights in social work? How are human rights practiced in social work? What are the prospects for an integrated approach to human rights in social work in contemporary Southeast Europe? *Human Rights in this Age of Uncertainty* is essential reading for social work academics and practitioners in Southeast Europe due to its geographic focus and standpoints from the specific countries of the region. The book also should

appeal to a wider European audience especially as the book features chapters from both inside and outside of the European Union as well as to an international audience of social work scholars In addition policy makers may find the book a useful resource because human rights discourse features prominently in the international approaches to welfare systems across Southeast Europe as part of the Europeanisation processes currently at play *The Scottish Jurist* ,1865 Human Rights Annual Report 2007 Great Britain. The Oxford Handbook of Intergenerational Ethics Stephen M. Gardiner,2025 This volume of new essays focuses on the increasing relevance of intergenerational ethics to key challenges of the 21st century such as climate change rapid technological change the expanding human population and threats of extinction It features philosophers and political theorists of international standing providing a cutting edge perspective on these issues *Code of Federal Regulations* ,1999 *Human Rights in Europe* Thomas Hammarberg,Council of Europe. Commissioner for Human Rights,2011-01-01 Political rhetoric on human rights in Europe is different from daily reality Almost every politician is on record as favouring the protection of freedom and justice Standards on human rights have been agreed at European and international level many have been integrated into national law but they are not consistently enforced There is an implementation gap it is this implementation gap that this book seeks to address it is built on a compilation of separate viewpoints or articles which Thomas Hammarberg has written and later updated since beginning his mandate as Council of Europe Commissioner for Human Rights in April 2006 He has now visited almost all of the 47 member states of the Council of Europe On each visit he

has met victims of violations of human rights and their families leading politicians prosecutors judges ombudsmen religious leaders journalists and civil society representatives as well as inmates of prisons and other institutions law enforcement personnel and others The viewpoints written on the basis of these many visits summarise his reflections conclusions and recommendations *Cases Decided in the Court of Session, Teind Court, Court of Exchequer and House of Lords* Scotland.
