civil rights activism from the late 1950s to the present day **One Night in Mississippi** Craig Shreve,2016-12-28 A vivid retelling of racial violence in Mississippi during the Sixties Protagonist confronts the legacy of violence in present day northern Ontario Author s first novel Simon s Choice was a finalist for the 2010 Amazon Breakthrough Novel Award Author is from North Buxton Ontario also known as the Elgin Settlement a prominent destination for slaves escaping via the Underground Railroad Fire in the Firefly Scott Gardiner,2016-02-27 A wicked Richleresque satire about a charismatic advertising executive and the three beautiful women who turn his life upside down Julius Roebuck is the creative director of a successful ad agency husband to the headstrong Anne and father to three lively children He is also the attentive lover of a poet named Lily When his wife s beautiful friend Yasmin announces her plan to get pregnant and describes him as the perfect sperm donor Julius is startled at first Then he decides that if she wants his DNA she must also want him Julius would have no trouble hopping into bed with Yasmin but more children are out of the question When he has a secret vasectomy to ensure there are no mistakes his already complicated life spirals out of control Fire in the Firefly is a wickedly funny satire about love relationships and the perennial war between the sexes **I Am a Man!** Steve Estes,2006-03-08 The civil rights movement was first and foremost a struggle for racial equality but questions of gender lay deeply embedded within this struggle Steve Estes explores key groups leaders and events in the movement to understand how activists used race and manhood to articulate their visions of what American society should be Estes demonstrates that at crucial turning points in the movement both segregationists and civil rights activists harnessed masculinist rhetoric tapping into implicit assumptions about race gender and sexuality Estes begins with an analysis of the role of black men in World War II and then examines the segregationists who demonized black male sexuality and galvanized white men behind the ideal of southern honor He then explores the militant new models of manhood espoused by civil rights activists such as Malcolm X and Martin Luther King Jr and groups such as the Nation of Islam the Student Nonviolent Coordinating Committee and the Black Panther Party Reliance on masculinist organizing strategies had both positive and negative consequences Estes concludes Tracing these strategies from the integration of the U S military in the 1940s through the Million Man March in the 1990s he shows that masculinism rallied men to action but left unchallenged many of the patriarchal assumptions that underlay American society

Resolving Racial Conflict Bertram J. Levine,2005 In 1964 when the Civil Rights Act was passed Congress wisely created an agency based in the U S Department of Justice to help forestall or resolve racial or ethnic disputes evolving from the act Mandated by law and by its own methodology to shun publicity the Community Relations Service developed self effacement to a fine art Thus the accomplishments as well as the shortcomings of this federal venture into conflict resolution are barely known in official Washington and even less so by the American public This first written history of the Community Relations Service uses the experiences of the men and women who sought to resolve the most volatile issues of the day to tell the fascinating story of this unfamiliar agency This multiracial cadre of conciliation and mediation specialists worked behind the scenes in more than 20 000 confrontations involving racial and ethnic minorities From Selma to Montgomery at the encampment of the Poor Peoples Campaign in Resurrection City to the urban riots of the sixties seventies and eighties from the school desegregation battles north and south at the siege of Wounded Knee and during the Texas Gulf Coast fishing wars between Southeast Asian refugees and Anglos these federal peacemakers lessened the atmosphere of racial violence in every major U S city and thousands of small towns These confrontations ranged from disputes that attracted worldwide attention to the everyday affronts assaults and upheavals that marked the nation s adjustment to wider power sharing within an increasingly diverse population While Resolving Racial Conflict examines some of the celebrated breakthroughs that made change possible it also delves deeply into the countless behind the scenes local efforts that converted possibility to reality Among the many themes in this book that provide new perspective for understanding racial conflict in America are the effects of protest and conflict in engineering social change the variety of civil rights views and experiences of African Americans Native Americans Asians and Hispanics the role of police in minority relations and the development and refinement of techniques for community conflict resolution from seat of the pants
