A Case for Historic Premillennialism Craig L. Blomberg, Sung Wook Chung, 2009-02-01 Many evangelical readers who have learned the basics of eschatology from popular authors and more recently from novelists assume that dispensational premillennialism with its distinctive teachings about the pretribulation rapture of the church is the only reliable view of the end times and the return of Christ This volume however offers a compelling case for an alternative perspective one that was widely prevalent throughout church history The contributors all respected scholars in their respective fields suggest that classic premillennialism offers believers a more coherent and viable approach to understanding eschatology Their studies which examine eschatology from biblical theological historical and missiological approaches provide a broadly accessible argument for returning to the perspectives of historic premillennial eschatology
