Ongeloof en revolutie Guillaume Groen van Prinsterer, 2008 **Ongeloof en revolutie** G. Groen van Prinsterer, Hendrik Smitskamp, 1964 **The German Awakening** Andrew Kloes, 2019 Inhaltsverzeichnis The history of the concept of religious awakening in German Protestantism Religious enlightenment and awakening historical consciousness and Protestant identity The awakening and preaching The awakening and theology The awakening and new religious societies for Evangelism The awakening and new religious societies for social reform *A Tiny Spot on the Earth* Piet Rooy, 2025-10-01 In this survey of the Dutch political culture of the nineteenth and twentieth centuries Piet de Rooy reveals that the polder model often used to describe economic and social policymaking based on consensus is a myth Instead modern political culture in the Dutch Low Countries began with a revolution and is rife with rivalries among political and ideological factions De Rooy argues that because of its extremely open economy the country is vulnerable to external political cultural and economic pressures and Dutch politics is a balancing act between profiting from international developments and maintaining sovereignty The sudden rise of populism and Euroscepticism at the turn of the millennium then indicated a loss of this balance Shining new light on the political culture of the Netherlands this book provides insights into the polder model and the principles of pillarization in Dutch society The Dutch edition of this book *Ons stipje op de wereldkaart* was awarded the Prinsjesboekenprijs for the best book on Dutch national politics in 2014 Survey of the Dutch political culture of the nineteenth and twentieth centuries Archeologies of Confession Carina L. Johnson, David M. Luebke, Marjorie Elizabeth Plummer, Jesse Spohnholz, 2017-05-01 Modern religious identities are rooted in collective memories that are constantly made and remade across generations How do these mutations of memory distort our picture of historical change and the ways that historical actors perceive it Can one give voice to those whom history has forgotten The essays collected here examine the formation of religious identities during the Reformation in Germany through case studies of remembering and forgetting instances in which patterns and practices of religious plurality were excised from historical memory By tracing their ramifications through the centuries *Archeologies of Confession* carefully reconstructs the often surprising histories of plurality that have otherwise been lost or obscured **Sayyid Qutb's Radical Islamism and the Comparative Political Theology** Dragos Stoica, 2024-12-15 Sayyid Qutb's Radical Islamism and The Comparative Political Theology argues that Sayyid Qutb's radical critique of secular modernity seen as a product of a great theft of sovereignty that usurps the monopoly of God over the entire world of creation is not idiosyncratic or incoherent but a quintessential expression and an extreme type of a specific tradition of political theology that until now has been exclusively the province of the Western thought Dragos Stoica claims that Sayyid Qutb's political theology of Hakimiyyah God's Sovereignty is better understood by integrating it in a wider context of the antimodern political theology Thus throughout this book he compares Qutb's critique of modernity with the Pakistani Islamist thinker Abu al A la Mawdudi 1903 1979 the Spanish Catholic counter revolutionary

political theologian Juan Donoso Cortes 1809 1853 as well as the Protestant political theologians Abraham Kuyper 1837 1920 and Rousas J Rushdoony 1916 2001 This book employs a family resemblance cross cultural comparative method and applies a cross disciplinary analytical model that combines comparative political theology with critical discourse analysis Employing these analytical instruments this book compares Qutb and his counterparts via the category of anti modern political theology more precisely through a set of shared antitheses organized around the master concept of God's Sovereignty The ultimate objective is to augment the understanding of the Qutbian critique of secular modernity as an essential dimension of anti modern political theology Thus by recasting Sayyid Qutb as an essential Muslim political theologian of God's Sovereignty placed within a larger cross cultural paradigm this book contributes as well to the necessary process of decolonization of political theology

Introducing Radical Orthodoxy James K. A. Smith, 2004-12 Provides a helpful overview of Radical Orthodoxy highlights its areas of agreement with Reformed theology and assesses its value as a truly postmodern theology

Herman Bavinck on Preaching and Preachers James P. Eglinton, 2021-09-16 Dutch theologian Herman Bavinck 1854 1921 is widely celebrated as one of the most eloquent divines in the Reformed tradition Despite having preached regularly throughout his adult life how he preached and what he thought about preaching have remained largely unknown to the many preachers who read him in the present day until now This book provides an English translation of Bavinck's key texts on preaching and preachers including his only published sermon For Bavinck in order to preach well one has to be a particular kind of person someone who lives coram Deo whose conscience and imagination are open to being powerfully stirred by both Creator and the creation and who is steeped in Scripture In short he describes someone quite different from the detached disenchanted modern Western people of Bavinck's own day These texts provide a profound critique of modern Western culture and describe the sense in which it often prevents its inhabitants from preaching well Furthermore they demonstrate both how Bavinck himself preached and how he understood preaching within the worship service and the wider life of the church

The Making of the Democratic Party in Europe, 1860-1890 Anne Heyer, 2022-02-15 This book analyses the emergence of modern parties in nineteenth century Europe and explores their connection with the slowly developing institution of democracy The close relationship between party and democracy was established by the founders of the first modern parties who presented themselves as representatives of the people Focusing on the ideas and practices of party founders this book moves away from the traditional view that party formation was the result of industrialisation It instead shows that the response of party founders was to frame and establish the modern party as an alternative to existing models of political representation and one that was characterised by popular participation In order to mobilize their followers party founders gave new meaning to existing structures and developed new practices of political organization The result was the creation of organizations that continue to shape the history of modern democracy Exploring the foundation of three political parties the German Social Democratic Workers Party SDAP the Dutch Anti Revolutionary Party ARP and the British National Liberal Federation the author analyses the phenomenon of innovative party formation in nineteenth century Europe before the democratic mass membership party had become a widely accepted concept Taking a transnational and comparative approach this book illustrates the decisive role of party founders in the formation of modern democracy making it an essential read for anyone researching the history of democracy and political parties

Bavinck James Eglinton, 2020-09-29 Dutch Calvinist theologian Herman Bavinck a significant voice in the development of Protestant theology remains relevant many years after his death His four volume Reformed Dogmatics is one of the most important theological works of the twentieth century James Eglinton is widely considered to be at the forefront of contemporary interest in Bavinck s life and thought After spending considerable time in the Netherlands researching Bavinck Eglinton brings to light a wealth of new insights and previously unpublished documents to offer a definitive biography of this renowned Reformed thinker The book follows the course of Bavinck s life in a period of dramatic social change identifying him as an orthodox Calvinist challenged with finding his feet in late modern culture Based on extensive archival research this critical biography presents numerous significant and previously ignored or unknown aspects of Bavinck s person and life story A black and white photo insert is included This volume complements other Baker Academic offerings on Bavinck s theology and ethics which together have sold 90 000 copies

The Reception of Edmund Burke in Europe Martin Fitzpatrick, Peter Jones, 2017-01-12 Over the last fifty years the life and work of Edmund Burke 1729 1797 has received sustained scholarly attention and debate The publication of the complete correspondence in ten volumes and the nine volume edition of Burke s Writings and Speeches have provided material for the scholarly reassessment of his life and works Attention has focused in particular on locating his ideas in the history of eighteenth century theory and practice and the contexts of late eighteenth century conservative

thought This book broadens the focus to examine the many sided interest in Burke s ideas primarily in Europe and most notably in politics and aesthetics It draws on the work of leading international scholars to present new perspectives on the significance of Burke s ideas in European politics and culture **The Doctrine of Creation** Bruce Riley Ashford,Craig G. Bartholomew,2020-11-10 According to Bruce Ashford and Craig Bartholomew one of the best sources for regaining a robust biblical doctrine of creation is the recovery of Dutch neo Calvinism Tracing historical treatments and exploring theological themes Ashford and Bartholomew develop the Kuyperian tradition s rich resources on creation for systematic theology and the life of the church today **Iowa Letters** Johannes Stellingwerff,2004 Stellingwerff Free U of Amsterdam and Swierenga history Hope College Holland present an expanded edition of the original Dutch text published under the title Amsterdamse Emigranten Buijten Schipperheijn 1976 The text features some 215 immigrant letters relating to the midwestern frontier from archives and private holdings on both side **New Approaches to Religion and the Enlightenment** Brett C. McInelly,Paul E. Kerry,2018-11-09 The Enlightenment an eighteenth century philosophical and cultural movement that swept through Western Europe has often been characterized as a mostly secular phenomenon that ultimately undermined religious authority and belief and eventually gave way to the secularization of Western society and to modernity To whatever extent the Enlightenment can be credited with giving birth to modern Western culture historians in more recent years have aptly demonstrated that the Enlightenment hardly singled the death knell of religion Not only did religion continue to occupy a central pace in political social and private life throughout the eighteenth century but it shaped the Enlightenment project itself in significant and meaningful ways The thinkers and philosophers normally associated with the Enlightenment to be sure challenged state sponsored church authority and what they perceived as superstitious forms of belief and practice but they did not mount a campaign to undermine religion generally A more productive approach to understanding religion in the age of Enlightenment then is to examine the ways the Enlightenment informed religious belief and practice during the period as well as the ways religion influenced the Enlightenment and to do so from a range of disciplinary perspectives which is the goal of this collection The chapters document the intersections of religious and Enlightenment ideas in such areas as theology the natural sciences politics the law art philosophy and literature **Catalogue of Printed Books** ,1894
