British Railways in Argentina, 1857-1914, 1983 **British Railways in Argentina, 1857-1914** Colin M. Lewis, University of London. Institute of Latin American Studies, 1983 Function and Fantasy: Iron Architecture in the Long Nineteenth Century Paul Dobraszczyk, Peter Sealy, 2016-07-01 The introduction of iron and later steel construction and decoration transformed architecture in the nineteenth century While the structural employment of iron has been a frequent subject of study this book re directs scholarly scrutiny on its place in the aesthetics of architecture in the long nineteenth century Together its eleven unique and original chapters chart for the first time the global reach of iron s architectural reception from the first debates on how iron could be incorporated into architecture s traditional aesthetics to the modernist cleaving of its structural and ornamental roles The book is divided into three sections Formations considers the rising tension between the desire to translate traditional architectural motifs into iron and the nascent feeling that iron buildings were themselves creating an entirely new field of aesthetic expression Exchanges charts the commercial and cultural interactions that took place between British iron foundries and clients in far flung locations such as Argentina Jamaica Nigeria and Australia Expressing colonial control as well as local agency iron buildings struck a balance between pre fabricated functionalism and a desire to convey beauty value and often exoticism through ornament Transformations looks at the place of the aesthetics of iron architecture in the late nineteenth and early twentieth centuries a period in which iron ornament sought to harmonize wide social ambitions while offering the tantalizing possibility that iron architecture as a whole could transform the fundamental meanings of ornament Taken together these chapters call for a re evaluation of modernism s supposedly rationalist interest in nineteenth century iron structures one that has potentially radical implications for the recent ornamental turn in contemporary architecture *Ulrich's International Periodicals Directory* Carolyn Farquhar Ulrich, 1999 **British-Owned Railways in Argentina** Winthrop R. Wright, 2014-09-01 During the nineteenth century British owned railways grew under the protection of an Argentine ruling elite that considered railways both instruments and symbols of progress Under this program of support for foreign enterprise Argentina had by 1914 built the largest railway network in Latin America During the first decades of the twentieth century the railways were successful in following a policy of calculated disregard for Argentine interests in general However following the end of World War I the British economic empire began to decline and Argentine economic nationalism grew A number of popularistic political movements incorporated economic nationalism into their platforms and even among the ruling elite there were signs of increasing nationalistic sentiment Although most studies of economic nationalism have emphasized the importance of the middle class Radical party in the rise of xenophobia Winthrop R Wright s study shows that antiforeign economic nationalism was not entirely a reaction to the conservative elite Between 1932 and 1938 the nationalistic programs of General Agustin Justo s government basically a conservative regime led the British interests to decide to sell their holdings The British government

had arrived at a position of supporting the economic withdrawal of the large British owned firms long before Juan D Per n appeared on the political scene Per n combined traditional Argentine economic nationalism with his own scheme to gain power over all elements in Argentina His solution to the railway problem although more dramatically executed did not differ greatly from that of the conservative Justo Per n purchased the railways outright in 1947 1948 but his use of nationalism was in reality covering his own inability to outbargain Britain and the United States following the conclusion of World War II

The British-owned Argentine Railways, 1857-1947 Colin M. Wright,1974 Manual of Argentine Railways ... ,1906 British Railways in Argentina 1860-1948 H. R. Stones,1993 This book is the first comprehensive account of the former British owned broad standard and metre gauge railways in Argentina It traces the growth of these railways for the earliest beginnings in 1860 until they were nationalized in 1948 At their height British Railways in Argentina represented one of the largest investments of British capital in a foreign country about 55 billion pounds in today s values At the end of the 19th century they accounted for 81% of the total railway mileage in Argentina and even by 1948 after a significant expansion of State owned railroads still accounted for 57% of the total This book provides a clear and detailed survey of the 17 British companies that were originally involved and their gradual amalgamation and co ordination The book is not intended to be a complete treatise on this subject but it provides an excellent introduction and survey of the field and it is hoped that it will stimulate further research by other historians Covers early pioneers locomotives and rolling stock permanent way bridges and tunnels signaling telegraphs and telephone train control as well as brief discussion of each of the railways Illustrated with black and white photos diagrams and charts With maps rosters list of officers list of ocean going ships connected to the railways station maps gradient profile and bibliography Descripci n del editor *Manual of Argentine Railways* Sir Stephen Henry Molyneux KILLIK,1906
