The European Union

as an Area of Freedom, Security and Justice Maria Fletcher, Ester Herlin-Karnell, Claudio Matera, 2016-11-25 This book presents a collection of essays on key topics and new perspectives on the EU's Area of Freedom Security and Justice (AFSJ) and has a Foreword by the President of the Court of Justice of the European Union Prof Dr Koen Lenaerts. Europe's area of freedom security and justice is of increasing importance in contemporary EU law and legislation. It is worthy of special research attention because of its high stakes content particularly from an individual and a state perspective and because its development to date has tangentially thrown up some of the most important and contentious constitutional questions in EU law. As the AFSJ becomes more and more intertwined with mainstream EU law, this edited collection provides a timely analysis of the merger between the two. Showcasing a selection of work from key thinkers in this field, the book is organised around the major AFSJ themes of crime security border control civil law cooperation and important meta issues of governance and constitutional law. It also analyses the major constitutional and governance challenges such as variable geometry institutional dynamics and interface with rights around data protection secrecy spying. In the concluding section of the book, the editors consider the extent to which the different facets of the AFSJ can be construed in a coherent and systematic manner within the EU legal system as well as identifying potential future research agendas. The European Union as an Area of Freedom Security and Justice will be of great interest to students and scholars of European law and politics.

The volume analyses transnational organised crime in consideration of the most relevant subareas of international law such as international human rights and the law of armed conflict. Internet Service Provider Liability for Copyright and Trade Mark Infringement Zoi Krokida, 2022-06-16 This book critically evaluates the EU regulatory framework for the liability of host Internet Service Providers (ISPs) for copyright and trade mark infringements and provides a cluster of novel recommendations for its improvement. The book recommends the imposition of

a duty of care to host ISPs to curb the dissemination of unauthorised works and counterfeit goods the ascription of a transparency obligation to host ISPs towards their users and the establishment of a supervisory authority for host ISPs Host ISPs have facilitated the dissemination of content amongst users and the purchase of goods online enabling copyright holders and brand owners to attract a greater audience for their works and goods However their services have attracted a high number of copyright and trade mark violations too Neither Article 14 of the e Commerce Directive nor Article 17 of the Copyright in the Digital Single Market Directive provide a solid response to the issue of host ISPs liability This book is a valuable resource for researchers in IT and IP law and offers a new perspective for resolving online IP disputes

The Conflict in Syria and the Failure of International Law to Protect People Globally Jeremy Julian Sarkin, 2021-11-28 This book explores through the lens of the conflict in Syria why international law and the United Nations have failed to halt conflict and massive human rights violations in many places around the world which has allowed tens of millions of people to be killed and hundreds of millions more to be harmed The work presents a critical socio legal analysis of the failures of international law and the United Nations UN to deal with mass atrocities and conflict It argues that international law in the

way it is set up and operates falls short in dealing with these issues in many respects The argument is that international law is state centred rather than victim friendly is to some extent outdated is vague and often difficult to understand and therefore at times hard to apply While various accountability processes have come to the fore recently processes do not exist to assist individual victims while the conflict occurs or the abuses are being perpetrated The book focuses on the problems of international law and the UN and in the context of the many enforced disappearances and arbitrary detentions in Syria why nothing has been done to deal with a rogue state that has regularly violated international law It examines why the responsibility to protect R2P has not been applied and why it ought to be used generally and in Syria It uses the Syrian context to evaluate the weaknesses of the system and why reform is needed It examines the UN institutional mechanisms the role they play and why a civilian protection system is needed It examines what mechanism ought to be set up to deal with the possible one million people who have been disappeared and detained in Syria The book will be a valuable resource for students academics and policy makers working in the areas of public international law international human rights law political science and peace and security studies **Digital Constitutionalism in Europe** Giovanni De Gregorio,2022-05-26
