Mobile Learning und Fremdsprachenunterricht Susanne Heinz, 2018 **Mobile Learning** M. Pegrum, 2014-07-23 This book explores the use of mobile devices for teaching and learning language and literacies investigating the ways in which these technologies open up new educational possibilities Pegrum builds up a rich picture of contemporary mobile learning and outlines of likely future developments **Wireless Algorithms, Systems, and Applications** Dongxiao Yu, Falko Dressler, Jiguo Yu, 2020-09-09 The two volume set LNCS 12385 12386 constitutes the proceedings of the 15th International Conference on Wireless Algorithms Systems and Applications WASA 2020 which was held during September 13 15 2020 The conference was planned to take place in Qingdao China due to the COVID 19 pandemic it was held virtually The 67 full and 14 short papers presented in these proceedings were carefully reviewed and selected from 216 submissions These submissions cover many hot research topics including machine learning algorithms for wireless systems and applications Internet of Things IoTs and related wireless solutions wireless networking for cyber physical systems CPSs security and privacy solutions for wireless applications blockchain solutions for mobile applications mobile edge computing wireless sensor networks distributed and localized algorithm design and analysis wireless crowdsourcing mobile cloud computing vehicular networks wireless solutions for smart cities wireless algorithms for smart grids mobile social networks mobile system security storage systems for mobile applications etc *Mobile Learning* John Traxler, Agnes Kukulska-Hulme, 2015-11-06 *Mobile Learning The Next Generation* documents the most innovative projects in context aware mobile learning in order to develop a richer theoretical understanding of learning in modern mobile connected societies Context aware mobile learning takes advantage of cell phone mobile and pervasive personal technologies to design learning experiences that exploit the richness of both indoor and outdoor environments These technologies detect a learner's presence in a particular place the learner's history in that place or in relation to other people and objects nearby and adapt learning experiences accordingly enabling and encouraging learners to use personal and social technologies to capture aspects of the environment as learning resources and to share their reactions to them **Social Media Tools and Platforms in Learning Environments** Bebo White, Irwin King, Philip Tsang, 2011-09-18 Online social media have transformed the face of human interaction in the 21st century Wikis blogs online groups and forums podcasts virtual worlds and social tagging are but a few of the applications enabling innovative behaviors that support acquisition access manipulation retrieval and visualization of information It is therefore no surprise that educational practitioners and theorists have begun to explore how social media can be harnessed to describe and implement new paradigms for communication learning and education The editors goal in publishing this book was to identify original research on the application of online social media and related technologies in education as well as emerging applications in Web technologies that could provide and shape future educational platforms The selected contributions deal with questions such as how social media can truly enrich and enhance

learning and teaching experiences in ways not otherwise possible how learning can be integrated in a distributed and ubiquitous social computing environment or what theories paradigms and models are applicable for the support of social computing in education Researchers in education or educational software will find interesting and sometimes provocative chapters on paradigms and methodologies virtual and mobile learning spaces and assessment and social factors Practitioners in these fields will benefit from an additional section devoted to case studies and first experience reports *Transforming Education in the Gulf Region* Khalid Alshahrani, Mohamed Ally, 2016-07-01 Countries in the Arab Gulf are currently experiencing some of the fastest rates of growth and progress in the world Transforming Education in the Gulf Region argues that education systems in these countries need to use innovative pedagogies and best practices in teaching and learning to educate all citizens so that they obtain the knowledge and skills to be productive members of society This book will contribute to the transformation of education in the Gulf countries by suggesting best practices research outcomes and case studies from experts in the Gulf region It has become increasingly evident in recent years that Gulf countries need to use emerging learning technologies to cater for the needs of learners and to provide maximum flexibility in learning There is also a growing practical need to use electronic technologies since learning materials are more widely available in electronic formats than in paper based formats This book focuses on the role of emerging technologies and innovative pedagogies in transforming education in six Gulf countries in the region Saudi Arabia United Arab Emirates Kuwait Qatar Oman and Bahrain With contributions from experts around the world the book argues that the time is right for Arab Gulf countries to make the transition to electronic learning and that they need to implement the outcomes of research and adopt best practices to transform and revolutionize education to prepare learners in the Gulf region for the 21st Century The book should be of interest to academics and students in the areas of higher education learning technologies education policy and education reform It should also be of interest to educators and policymakers in the Gulf region **The Roles of Social Media in**

Education: Affective, Behavioral, and Cognitive Dimensions Hung Phu Bui, Mark Bedoya Ulla, Veronico N. Tarrayo, Chien Thang Pham, 2023-10-24 technologies in education A large body of research has attempted to measure the extent to which social media change human communication In education researchers and educators have employed social media to increase students engagement inside and outside the classroom They have been exploring the effects of the use of social media on the learning outcome and learners beliefs and experiences However some of their endeavors are inconclusive As the effects of social media in education are context sensitive research results reflecting different contexts around the world will contribute to the literature on social media and education Student engagement in learning a growing interest in educational research is widely believed to contribute to the success of learning The contemporary literature shows that students can engage in learning affectively behaviorally and cognitively Recent studies are also interested in using technology to mediate students social and metacognitive engagement in learning As student engagement is a
