Ongewone Alledaagsheid Spiritualiteit En Het Dagelijks Leven:

Ongewone alledaagsheid Bart Voorsluis, 2003 Filosofische beschouwingen over spiritualiteit in het dagelijks leven

Thresholds: Rethinking Spirituality Through Music Marcel Cobussen, 2017-07-05 In *Thresholds* Marcel Cobussen rethinks the relationship between music and spirituality The point of departure is the current movement within contemporary classical music known as New Spiritual Music with as its main representatives Arvo P John Tavener and Giya Kancheli In almost all respects the musical principles of the new spiritual music seem to be diametrically opposed to those of modernism repetition and rest versus development and progress tradition and familiarity versus innovation and experiment communication versus individualism and conceptualism tonality versus atonality and so on As such this movement is often considered as part of the much larger complex called postmodernism Joining in with ideas on spirituality as presented by Michel de Certeau and Mark C Taylor Cobussen deconstructs the classification of the spiritual dimensions of music as described above *Thresholds* presents an idea of spirituality in and through music that counters strategies of exclusion and mastering of alterity and connects it to wandering erring and roving Using the philosophy of Martin Heidegger Georges Bataille Jean Fran s Lyotard Jacques Derrida and others and analysing the music of John Coltrane the mythical Sirens Arvo P and The Eagles to mention a few Cobussen regards spirituality as a non concept that escapes categorization classification and linguistic descriptions Spirituality is a topological non discursive and a manifestation of otherness And it is precisely music or better listening to music that induces these thoughts by carefully encountering analysing and evaluating certain examples from classical jazz pop and world music it is possible to detach spirituality from concepts of otherworldliness and transcendentalism *Thresholds* opens a space in which spirituality can be connected to music that is not commonly considered in this light thereby enriching the ways of approaching and discussing music In orde *Tot de kern komen* Johan Smit, 2012-08-31 Dit boek wil alle pastores in de breedste zin van het woord helpen om bewuster sneller en beter pastorale gesprekken te voeren De auteur richt zich op iedereen die zich met of zonder ambt of specifieke rol toelegt op heilzame ontmoetingen met mensen Pastoraat kan immers door iedereen worden gedaan **Essays on the Real Church** Dirk J. Smit, 2024-08-15 The spirit of the Reformation is often expressed in the well known slogan that Reformed churches are always being reformed according to God s Word ecclesia reformata semper reformanda secundum verbum Dei Over the last century the spirit of this slogan motivated someone like Dietrich Bonhoeffer to argue that the visible form and life of the church should reflect the truth and message of the church Already in his doctoral dissertation called *Sanctorum Communio* the communion of the saints the young Bonhoeffer combined theological claims and traditions with social theory and analysis in this spirit in an innovative way to study the nature and integrity and witness of the church At the time this was a radical claim with major consequences and challenges for Protestant churches Their life which meant their order structure actions statements convictions public presence and role was to be measured by their gospel which meant their message

proclamation convictions claims They could no longer proclaim one truth yet live a different life It was this spirit which led to the well known Theological Declaration of Barmen in 1934 and to the formation of the Confessing Church in Nazi Germany Many called this a moment of truth a status confessionis It was this same spirit which later inspired the struggle in South Africa for the integrity and faithfulness of the church and for the credibility of its message proclamation and witness The contributions in this volume 52 papers essays sermons studies were all produced in this spirit Most of them have not been published before They were all occasional pieces written over several decades in different contexts and for different purposes and audiences yet they all breathe this self critical spirit of the Reformation considering whether the real church the concrete every day actual living church that people know and experience and perhaps belong to truly strives to embody the gospel itself the message which it claims and proclaims They all inquire under different circumstances and in diverse ways about different social forms of the real church from worship to congregation from denomination to ecumenical church from individual believers to movements and organisations whether and how they embody the truth of the church or not Together these contributions tell a story the story of this spirit in South African circles over several decades but also in the ecumenical church in our globalizing world They offer one small glimpse into different concrete moments in the story of this spirit in the life of this tradition and community of faith Hopefully some of these accounts may resonate with others who also shared the same spirit and still share it today in new and ongoing ways
