Online Book Anti Cartel Enforcement Contemporary Age Competition:

Anti-Cartel Enforcement in a Contemporary Age Caron Beaton-Wells, Christopher Tran, 2015-09-24 Leniency policies are seen as a revolution in contemporary anti cartel law enforcement Unique to competition law these policies are regarded as essential to detecting punishing and deterring business collusion conduct that subverts competition at national and global levels Featuring contributions from leading scholars practitioners and enforcers from around the world this book probes the almost universal adoption and zealous defence of leniency policies by many competition authorities and others It charts the origins of and impetuses for the leniency movement captures key insights from academic research and practical experience relating to the operation and effectiveness of leniency policies and examines leniency from the perspectives of corporate and individual applicants advisers and authorities The book also explores debates surrounding the intersections between leniency and other crucial elements of the enforcement system such as compensation compliance and criminalisation The rich critical analysis in the book draws on the disciplines of law regulation economics and criminology It makes a substantial and distinctive contribution to the literature on a topic that is highly significant to a wide range of actors in the field of competition law and business regulation generally From the Foreword by Professor Frédéric Jenny fundamental questions are raised and thoroughly discussed in this book which is undoubtedly the most comprehensive scholarly work on leniency policies produced so far the book should be required reading for all seeking to acquire a deeper insight into the issues related to leniency policy It is a priceless contribution

Access and Cartel Cases Helene Andersson, 2021-01-14 This book examines the legislative patchwork surrounding access to the European Commission's cartel case files Recent legislative changes have increased the value of the files and have also highlighted the inherent tension between a number of competing interests affecting their accessibility The Commission is undoubtedly caught between a rock and a hard place charged with the task to ensure due process transparency and effectiveness while at the same time promoting both public and private enforcement of the EU competition rules The author considers how best to ensure a proper balance between the legitimate but often diverging interests of parties third parties and national competition authorities in these cases The book provides a unique and comprehensive presentation of the EU legislation and case law surrounding access to the Commission's cartel case files The author examines the question of accessibility from three different perspectives that of the parties under investigation cartel victims and national competition authorities The author also considers the EU leniency system and whether any legislative changes could make the attractiveness of the system less dependent on the possibilities of cartel victims to access the evidence contained in the Commission's case files
