Therapeutic Interviewing Michael D. Reiter, 2022-02-10 This newly updated introductory textbook is designed to help students of psychotherapy and counseling at all levels build the foundational strategies, skills, and tools essential for engaging clients in a therapeutic interview, developing a specialist understanding of the varying formats and diverse settings in which these interviews occur. In this second edition, Michael D. Reiter interweaves a new framework, the Issue Cycle, to help students build from start to finish a foundational template for engaging clients regardless of therapeutic model. With every chapter being revised as well as including a new chapter on the ethical relationship that occurs in psychotherapy, the book begins with laying down the context of therapy such as its definitions, motivations, and ethics before moving on to developing students' skills of therapy, including conversing, reflecting, goal setting, terminating sessions, and how to avoid being an ineffective therapist. In Parts 3 and 4, chapters cover the contexts of clients and therapy such as working with children, families, and groups, and includes a special revised focus on multicultural interviewing and effective online counseling. Including several interactive elements such as case scenarios and application exercises, an instructor's manual with a sample syllabus, essay questions, and more, students can uniquely see theory in action. Practical and accessible, this textbook shall be essential reading for students of psychotherapy and counseling as well as training family therapists, social workers, and other mental health professionals who work directly with those dealing with psychological, behavioral, and emotional difficulties.

Love's Revolution Maria P. P. Root, 2001 When the Baby Boom generation was in college the last miscegenation laws were declared unconstitutional but interracial romances retained an aura of taboo Since 1960 the number of mixed race marriages has doubled every decade Today the trend toward intermarriage continues and the growing presence of interracial couples in the media on college campuses in the shopping malls and other public places draws little notice Love s Revolution traces the

social changes that account for the growth of intermarriage as well as the lingering prejudices and false beliefs that oppress racially mixed families For this book author Maria P P Root a clinical psychologist interviewed some 200 people from a wide spectrum of racial and ethnic backgrounds Speaking out about their views and experiences these partners family members and children of mixed race marriages confirm that the barriers are gradually eroding but they also testify to the heartache caused by family opposition and disapproving strangers Root traces race prejudice to the various institutions that were structured to maintain white privilege but the heart of the book is her analysis of what happens when people of different races decide to marry Developing an analogy between families and types of businesses she shows how both positive and negative reactions to such marriages are largely a matter of shared concepts of family rather than individual feelings about race She probes into the identity issues that multiracial children confront and draws on her clinical experience to offer child rearing recommendations for multiracial families Root s Bill of Rights for Racially Mixed People is a document that at once empowers multiracial people and educates those who ominously ask What about the children Love s Revolution paints an optimistic but not idealized picture of contemporary relationships The Ten Truths about Interracial Marriage that close the book acknowledge that mixed race couples experience the same stresses as everyone else in addition to those arising from other people s prejudice or curiosity Their divorce rates are only slightly higher than those of single race couples which suggests that their success or failure at marriage is not necessarily a racial issue And that is a revolutionary idea Author note Maria P P Root Ph D is a clinical psychologist and past President of the Washington State Psychological Association
