AI Futures Evgeny Morozov, 2025-04-29

A sober assessment of AI today and a bold vision for what it could be Generative AI tools released by a handful of rich tech companies are remaking the economy society and human life as we know it Must their vision be our common destiny Leading a forum acclaimed technology writer Evgeny Morozov author of *To Save Everything* [Click Here](#) and host of the podcast *A Sense of Rebellion* takes a hard look at Silicon Valley's grip on our technological imagination The prevailing wisdom says we can be complacent realists erecting a few guardrails around Big Tech or else total refuseniks rejecting this new technology altogether That false choice runs roughshod over history Morozov argues and with it a more utopian vision of the role technology can play in our lives To sketch a better AI future Morozov takes us back to the past showing how a radically different way of thinking about artificial intelligence once flourished before losing out to Cold War militarization consumerism and venture capital That more humane vision can still be won but it requires being clear-eyed about the obstacles Only by building political power Morozov concludes can we wrench control of AI from Silicon Valley and build a technological future that serves us all
