Mobile Tech Report 2014 John R. Roberts, 2014-01-10

If you read technology news, you'll notice it's not just a story of amazing new product introductions or even that plus-copycat product introductions. All the usual aspects of business are there: fierce competition, new contenders, old survivors, great ideas, but business failures, mediocre ideas that somehow seem to succeed and prosper. As a reporter, commentator, and blogger on mobile technology, I've collected what happened in the industry in 2013 and make predictions on what will and won't happen in 2014. You can read what did happen in the mobile technology in 2013. Often I deliver a comment with the news item, and usually there is a link to the web page of the original announcement. This way you can dive into any detail level you desire: read my news feed for the overview or follow the related web link to the longer article. History is moving so fast now that it is all recorded electronically, but I'm surprised no one else has collected it and presented it for consideration. Here is 2013 from the mobile technology industry for your consideration along with my

own observations and opinions about where things are headed It s often overlooked that the technology industry is an industry By that I mean its main concerns are profit and growth As consumers we love the new products and unique abilities we are gaining from technology but it is a business akin to any other trying to seduce us to pry money out of our wallets So I cover the horse race aspect of the business who s up who s down Is that changing Is that likely to change The longer implications of what the technology industry is doing are vast and social We are moving to an always on always connected society where we can communicate with someone instantly and find an answer to any question quickly The entire database of human knowledge is now available in the palm of your hand whenever you desire it Everything is there the good the bad right and wrong hate and love music and noise We are obsessed with technology not in and of itself but as a means to an end Technology is the means to satisfy our curiosity or even our desire for self expression We are taking photos machine gun style with our smartphones and choose the few to share As humans we are gathering ever more data about ourselves and sharing more about ourselves than we probably thought possible Bill Gates was once asked why the computer industry had generated so much improvement in its products over a relatively few years He gave some boring answer about Moore s Law but the real answer is that computers are in their teenage years They are growing and growing They will not always do so So too the technology industry is in a state of rapid change I see the shift to smaller devices as a new paradigm smashing some businesses and growing others into giants Their stories are here in the news In short here are predictions for what won t and will happen in 2014 for the mobile technology industry breakdowns of marketshare figures on the horse race aspect of the business chapters on Apple Samsung Google Microsoft Nokia Blackberry Amazon Yahoo news about social media giants Facebook Twitter Google LinkedIn Foursquare SnapChat and the carriers themselves Verizon AT T Sprint and T Mobile You can also review my 2013 mobile predictions and see my track record on predictions Finally there are some essays on how all this mobile tech is figuring into our lives I ve divided the news into the subjects it covers but also put in the appendix all the news as it came out in chronological ordering You can read the firehose of events in the appendix or just read about one topic at a time in the earlier chapters Table of Contents Preface Introduction Chapter 1 2014 Predictions Chapter 2 Mobile Marketshare Chapter 3 Apple Chapter 4 Samsung Chapter 5 Google Chapter 6 Microsoft Chapter 7 Nokia Chapter 8 Blackberry Chapter 9 Amazon Chapter 10 Social Media Chapter 11 Yahoo Chapter 12 Carriers Chapter 13 2013 Predictions Chapter 14 Essays Appendix Plunkett's Wireless, Wi-Fi, RFID & Cellular Industry Almanac Jack W. The New Technology Elite Vinnie Mirchandani, 2012-03-27 How to guidance for optimizing incumbent technologies to deliver a better product and gain competitive advantage Their zip codes are far from Silicon Valley Their SIC codes show retail automobile or banking But industry after industry is waking up to the opportunity of smart products and services for their increasingly tech savvy customers Traditionally technology buyers they are learning to embed technology in their products and become technology vendors In turn if you analyze Apple Google Amazon Facebook Twitter and eBay you marvel at their data centers retail stores application ecosystems global supply chains design shops They are considered consumer tech but have better technology at larger scale than most enterprises The old delineation of technology buyer and vendor is obsolete There is a new definition for the technology elite and you find them across industries and geographies The 17 case studies and 4 guest columns spread through *The New Technology Elite* bring out the elite attributes in detail Every organization will increasingly be benchmarked against these elite and soon will be competing against them Contrasts the productivity that Apple Google and others have demonstrated in the last decade to that of the average enterprise technology group Reveals how to leverage what companies have learned from Google Apple Amazon com and Facebook to your company's advantage Designed for business practitioners CEOs CFOs CIOs technology vendors venture capitalists IT consultants marketing executives and policy makers Other titles by Vinnie Mirchandani *The New Polymath Profiles in Compound Technology Innovations* If you're looking to encourage technology innovation look no further *The New Technology Elite* provides the building blocks your company needs to become innovative through incumbent technologies

iWar Tim Higgins, 2025-09-18 From the boardrooms to the court rooms this is the gripping story of how

Apple became the world's most valuable company and of the lawmakers and entrepreneurs determined to knock it off its pedestal. Since the invention of the iPhone and App Store, Apple has built a near unassailable market power controlling not only commerce but also culture and increasingly the flow of ideas. In response, a loose rebel alliance of tech entrepreneurs has formed to lay siege to Apple, bringing together Epic Games, Tim Sweeney, Spotify's Daniel Ek, X's Elon Musk, and WeChat's Pony Ma. In the trenches of popular opinion and now in the courtrooms of Europe and the United States, this rebellion aims to tear down Apple's walls and dismantle its alleged monopoly. iWar weaves together the story of Apple's rise and reign with the political and international forces arrayed against it in the fight over control of the global digital economy. The stakes couldn't be higher.
