Exploring STEM Environments that Broaden Participation Tyrslai Williams, Renã A. S. Robinson,Zakiya S.

Wilson-Kennedy,2025-09-16 Creating spaces conducive for all students pursuing degrees in STEM is a constant conversation in higher education Studies establish the need for broad participation in STEM and the barriers in place that prevent matriculation through critical junctures Through these studies several suggestions and recommendations suggest supporting students through advising mentoring and research experience Very little is discussed about the tools and strategies needed to enhance students own development of self efficacy and self identity through mentorship in formal environments like the lab classroom and departments but also in informal STEM environments like bridge programs organizational involvement and mentoring groups While the environments seem very different the mission of dynamic approaches to student progression is apparent Furthermore understanding how the support evolves at each critical juncture is critical to the way in which the future of STEM will advance

Developing and Sustaining STEM Programs Across the K-12 Education Landscape

Spott, Jessica L.,Sobehrad, Lane J.,Hite, Rebecca L.,2023-08-30 Locally or individually STEM programs provide additional opportunities to engage K 12 students including those from marginalized groups with the support of STEM outreach organizations through the co construction and implementation of STEM activities during school out of school at home and in the community Research suggests that community engaged partnerships forge relationships that can enhance and sustain K 12 STEM education efforts between K 12 districts and the scholarly community There is a need to highlight community engaged teaching and scholarship produced from partnerships between K 12 school districts and STEM outreach organizations Developing and Sustaining STEM Programs Across the K 12 Education Landscape describes the purpose of the collaboration between K 12 school districts and STEM outreach organizations the STEM activities that participating K 12 students engage in and the impacts on STEM learners that emerge from the partnership Covering topics such as continuous program improvement school industry partnerships and student success this premier reference source is an excellent resource for educational leaders and administrators pre service and in service educators teacher educators researchers and academicians
