They include a doubleheader that lasted six and a half innings combined, a single game that featured three teams on the field, a game in which the Dodgers didn't record a hit and won, the games in which the single season and career home run records were broken, three perfect games and two no-hitters. An exhibition game that drew 93,103 spectators. The first integrated game in major league history. *The 50 Greatest Dodgers Games* features all the best players to don the uniform: Sandy Koufax, Jackie Robinson, Kirk Gibson, Zack Wheat, Fernando Valenzuela, Orel Hershiser, Duke Snider, Roy Campanella, Clayton Kershaw, Steve Garvey, Don Drysdale, Pee Wee Reese, and more. The business of baseball stands in sharp contrast to the game's wholesome image as America's favorite pastime. Major league baseball is a deeply troubled industry facing chronic problems that threaten its future: persistent labor tensions, competitive dominance by high-revenue teams, migration of game telecasts to cable, and escalating ticket prices. Amid the threat of contraction, existing franchises are demanding public subsidies for new stadiums while viable host cities are begging for teams. The game's core base of fans is aging, and MLB is doing precious little to attract a younger audience. According to Andrew Zimbalist, these problems have a common cause: monopoly. Since 1922, MLB has benefited from a presumed exemption from the nation's antitrust laws. It is the only top-level professional baseball league in the country, and each of its teams is assigned an exclusive territory. Monopolies have market power, which they use to derive higher returns, misallocate resources, and take advantage of consumers. Major league baseball is no exception. In *May the Best Team Win*, Zimbalist provides a critical analysis of the baseball industry.

focusing on the abuses and inefficiencies that have plagued the game since the 1990s when franchise owners appointed their colleague Bud Selig as MLB's independent commissioner
