Mission 1 To experience the social skills in an ethical framework for critical thinking and leadership by conducting successful community research in forgotten children 2 To improve the local culture of health care to reduce health disparities in underserved neighborhoods

The Orenda Approach An Iroquois adjective denotes the goal of developing leadership in adolescents The approach is by organizing health sciences clubs for at risk adolescents as an after school activity with trained mentors Small teams select and identify locally relevant health disparities micro Community Based Participatory Research mCBPR projects Using the 5 steps of mCBPR scientific process with a mantra of learn decide and do at each step they conduct a wide range of practices to extend skills promoted by STEM disciplines by adding arts and science as STREAM learning The mCBPR projects are used to draw inferences and present recommendations to reduce barriers posed by the local community Fitted into an academic school year in weekly OST club meetings with an end of academic year the results are shared in a local community health fair

Long term objectives We offer a model for a city wide network of clubs targeted to the most underserved neighborhoods as an approach to improve city wide health equity If sustained This could contribute multiple topics for a cumulative increased awareness to enhance the local culture of health Without help these forgotten children are destined to the local cycle of failure a societal lost opportunity With help each year a cohort of students would be trained in problem solving as an increased societal opportunity as community leaders for the future

Being Flawesome Nicholas Matthews, 2021-01-21 A remarkable fact to reflect on You are perfect What we do in action and what we consider in thought remain vulnerable to imperfection It is for this reason that we often find ourselves living in a confused state of contradiction whereby we strangely possess the capacity to surrender to the dangerous and ungrounded assumption that would say we are simply a representation of our flawed character Or that we are not good enough similarly that we need more The alternative and more appealing by far is to consider our lives as being securely rooted in the grounded wisdom of having a perfected identity The key to confidence is living from perfected identity Jesus perfects our identity while our character remains vulnerable to imperfection Being Flawesome explores the tension between flawed character and perfected identity and advocates a life of living imperfectly perfect
