Red Men John Williams,2011-04-01 In Red Men a unique and exhaustively researched history of Liverpool Football Club John Williams explores the origins and divisive politics of football in the city of Liverpool and profiles the key men behind the emergence of the club and its early successes The first great Liverpool manager Tom Watson piloted the club to its first league championships in 1901 and 1906 before taking the club to the FA Cup final in 1914 Watson and the key members of those early Liverpool teams are analysed in depth as is the role of the club and its fans in the city as Merseyside balanced self improvement and cosmopolitanism with almost unimaginable problems of poverty Liverpool secured consecutive league titles in 1922 and 1923 with the incomparable goalkeeper Elisha Scott as its totemic star and the darling of the Kop In the 20s Liverpool was also the first British club to internationalise its playing staff The club s next league title came in 1947 but in the bleak 50s the Liverpool board ruled with an iron fist and controlled the purse strings until Bill Shankly arrived and won that elusive first FA Cup in 1965 The recent tragedies that have shaped the club s contemporary identity are also covered here as are the new Continental influences at Liverpool and of course the glory of Istanbul in 2005 Red Men is the definitive history of a remarkable football club from its formation in 1892 to the present day told in the wider context of the social and cultural development of the city of Liverpool and its people

The Costs of Living Barry Schwartz,2001-03-22 We all value freedom family friends work education health and leisure the best things in life But the pressure we experience to chase the dollar in order to satisfy both the demands of the bottom line and the demands of our seemingly insatiable desire to consume are eroding these best things in life Our children now value profit centers not sports heroes Our educational system is fast becoming nothing more than a financial investment where students are encouraged to expend more energy on making the grade than on learning about their world Our business leaders are turning young idealists into cynics when they cut corners and explain that everybody s doing it The need to achieve in our careers intrudes so greatly on our personal world that we find ourselves weighing the costs of enjoying friendships rather than

working In this book psychologist Barry Schwartz unravels how market freedom has insidiously expanded its reach into domains where it does not belong He shows how this trend developed from a misguided application of the American value of individuality and self pursuit and how it was aided by our turning away from the basic social institutions that once offered traditional community values These developments have left us within an overall framework for living where worth is measured entirely by usefulness in the marketplace The more we allow market considerations to guide our lives the more we will continue to incur the real costs of living among them disappointment and loneliness We all value freedom family friends work education health and leisure the best things in life But the pressure we experience to chase the dollar in order to satisfy both the demands of the bottom line and the demands of our seemingly insatiable desire to consume are eroding these best things in life Our children now value profit centers not sports heroes Our educational system is fast becoming nothing more than a financial investment where students are encouraged to expend more energy on making the grade than on learning about their world Our business leaders are turning young idealists into cynics when they cut corners and explain that everybody s doing it The need to achieve in our careers intrudes so greatly on our personal world that we find ourselves weighing the costs of enjoying friendships rather than working In this book psychologist Barry Schwartz unravels how market freedom has insidiously expanded its reach into domains where it does not belong He shows how this trend developed from a misguided application of the American value of individuality and self pursuit and how it was aided by our turning away from the basic social institutions that once offered traditional community values These developments have left us within an overall framework for living where worth is measured entirely by usefulness in the marketplace The more we allow market considerations to guide our lives the more we will continue to incur the real costs of living among them disappointment and loneliness
