Openai This Week:

Your GPT, Your Way Zane Wilder, 2025-04-11 Build AI Without Writing a Single Line of Code Artificial Intelligence is no longer reserved for programmers and tech giants Your GPT Your Way is the ultimate no code guide to building your own AI applications without needing any prior technical knowledge Whether you re an entrepreneur content creator educator or business owner this book will walk you through the process of developing customizing and even monetizing GPT powered applications in a way that is accessible practical and rewarding What You ll Learn 1 The fundamentals of GPT and how AI language models work 2 How to create your own AI powered chatbot writing assistant or automation tool 3 Step by step guidance on using no code platforms to integrate GPT seamlessly 4 How to optimize AI applications for real world use cases in business education customer service and more 5 Strategies to monetize your AI creations through subscriptions licensing and automation Who Is This Book For Entrepreneurs looking to automate and scale their businesses Professionals who want to boost productivity with AI powered tools Writers marketers and content creators seeking AI assistance Educators and trainers looking to enhance learning experiences Anyone with an idea but no coding background who wants to build AI applications that work Skip the technical jargon and start building your own GPT powered applications today With clear instructions real world examples and hands on exercises this book will give you the confidence to turn your ideas into reality without ever touching a line of code

Empire of AI Karen Hao, 2025-05-20 A NEW YORK TIMES BESTSELLER An eye opening account of the tech arms race shaping out planet from an award winning journalist and AI insider to the world of Sam Altman and OpenAI When longtime AI expert and journalist Karen Hao first began covering OpenAI in 2019 she thought they were the good guys Founded as a nonprofit with safety enshrined as its core mission it was meant its leader Sam Altman told us to act as a check against more purely market forces But the core truth of this massively disruptive sector is that it requires an unprecedented amount of proprietary resources the compute power of scarce high end chips the sheer volume of data that needs to be amassed at scale the humans on the ground cleaning it up for sweatshop wages throughout the Global South and a truly alarming spike in the need for energy and water underlying everything We have entered a new ominous age of empire with OpenAI setting a breakneck pace as a small group of the most valuable companies in human history try to chase it down In exhilarating prose and with unparalleled access to those closest to Sam Altman Hao recounts the meteoric rise of OpenAI and shows us the sinister impact that this industry is having on society

Programming Large Language Models with Azure Open AI Francesco Esposito, 2024-04-03 Use LLMs to build better business software applications Autonomously communicate with users and optimize business tasks with applications built to make the interaction between humans and computers smooth and natural Artificial Intelligence expert Francesco Esposito illustrates several scenarios for which a LLM is effective crafting sophisticated business solutions shortening the gap between humans and software equipped machines and building powerful reasoning engines Insight into prompting and conversational programming with

specific techniques for patterns and frameworks unlock how natural language can also lead to a new advanced approach to coding Concrete end to end demonstrations featuring Python and ASP NET Core showcase versatile patterns of interaction between existing processes APIs data and human input Artificial Intelligence expert Francesco Esposito helps you Understand the history of large language models and conversational programming Apply prompting as a new way of coding Learn core prompting techniques and fundamental use cases Engineer advanced prompts including connecting LLMs to data and function calling to build reasoning engines Use natural language in code to define workflows and orchestrate existing APIs Master external LLM frameworks Evaluate responsible AI security privacy and accuracy concerns Explore the AI regulatory landscape Build and implement a personal assistant Apply a retrieval augmented generation RAG pattern to formulate responses based on a knowledge base Construct a conversational user interface For IT Professionals and Consultants For software professionals architects lead developers programmers and Machine Learning enthusiasts For anyone else interested in natural language processing or real world applications of human like language in software

Supremacy Parmy Olson, 2024-09-10 WINNER OF THE THE FINANCIAL TIMES AND SCHRODERS 2024 BUSINESS BOOK OF THE YEAR AWARD In November of 2022 a webpage was posted online with a simple text box It was an AI chatbot called ChatGPT and was unlike any app people had used before It was more human than a customer service agent more convenient than a Google search Behind the scenes battles for control and prestige between the world s two leading AI firms OpenAI and DeepMind who now steers Google s AI efforts has remained elusive until now In Supremacy Olson tech writer at Bloomberg tells the astonishing story of the battle between these two AI firms their struggles to use their tech for good and the hazardous direction they could go as they serve two tech Goliaths whose power is unprecedented in history The story focuses on the continuing rivalry of two key CEOs at the center of it all who cultivated a religion around their mission to build god like super intelligent machines Sam Altman CEO of OpenAI and Demis Hassabis the CEO of DeepMind Supremacy sharply alerts readers to the real threat of artificial intelligence that its top creators are ignoring the profit driven spread of flawed and biased technology into industries education media and more With exclusive access to a network of high ranking sources Parmy Olson uses her 13 years of experience covering technology to bring to light the exploitation of the greatest invention in human history and how it will impact us all

High Performance Boards Didier Cossin, 2024-07-31 Didier Cossin s High Performance Boards covers aspects of culture and organisational design that are foundational to any successful institution This comprehensive study captures real world insights on quality governance and effective leadership It connects his four pillar methodology for gauging and improving board effectiveness learning from both failure and success and boardroom best practice It is a valuable tool for present and future directors Mark Tucker Group Chairman of HSBC Holdings plc Recent developments in the financial services industry dramatically illustrate the intimate link between good governance and a company s success or failure particularly in times of crisis In his latest book Didier Cossin sheds light on

the design principles and practice that underpin good governance A catchy and comprehensive textbook for those in charge Sergio Ermotti Group CEO and President of the Executive Board of UBS AG The most up to date version of the gold standard in board governance In the newly revised second edition of High Performance Boards A Practical Guide to Improving Energizing your Governance author Didier Cossin delivers an incisive and practical roadmap to board governance best practices Accessible to professionals from a variety of backgrounds the book lays out the foundational and advanced concepts you ll need to understand to effectively govern a for profit firm non profit or government entity You ll learn to manage risk increase the impact of your board consider and evaluate the importance of ESG metrics take into account geopolitics and supervise your organization s culture You ll also discover Extensive revisions to existing chapters including new methods of cyber risk management and stakeholder management Strategies for avoiding the common pitfall of greenwashing Increasingly common new activism techniques undertaken by boards and investors to shape the behaviour of organizations An indispensable resource for board members and directors serving on boards at organizations of all kinds High Performance Boards will also earn a place on the bookshelves of corporate lawyers board secretaries and students of corporate governance For additional materials to the book please see didiercossin.com **Mastering ChatGPT** George

Artificial Intelligence and Law in the Communication Professions Cayce Myers, 2025-06-06 This book analyzes the current attempts to regulate artificial intelligence AI and its impact on the communication field Examining existing and proposed laws policies and regulations of AI in the U S and the European Union this book analyzes how the technological development of AI will be governed in the next decade and how this will impact the communication industry Chapters explore the influence of laws on key communication issues including free speech disinformation intellectual property privacy and discrimination as well as the AI industry s approach to self regulation It shows how communication professionals such as public relations practitioners advertisers and journalists will be affected by generative AI content production and how communication will ultimately be shaped by the regulations and laws placed on AI Providing readers with a working knowledge of the contemporary legal issues surrounding AI and communication this book will be of interest to scholars and students in the fields of Media and Communication Law Public Relations Advertising and Journalism

The Tech Coup Marietje Schaake, 2025-09-16 A tech insider who has been hailed by The New Yorker for her forceful critique of Big Tech describes what must be done to stop its erosion of democracy Over the past decades under the cover of innovation technology companies have successfully resisted regulation and have even begun to seize power from governments themselves Facial recognition firms track citizens for police surveillance Cryptocurrency has wiped out the personal savings of millions and threatens the stability of the global financial system Spyware companies sell digital intelligence tools to anyone who can afford them This new reality where unregulated technology has become a forceful instrument for autocrats around the world is terrible news for democracies and citizens In The Tech Coup Marietje Schaake offers a behind the scenes account of how technology companies crept into nearly every corner of our lives and our governments She takes us beyond the headlines to high stakes meetings with human rights defenders business leaders computer scientists and politicians to show how technologies from social media to artificial intelligence have gone from being heralded as utopian to undermining the pillars of our democracies To reverse this existential power imbalance Schaake outlines game changing solutions to empower elected officials and citizens alike Democratic leaders can and must resist the

influence of corporate lobbying and reinvent themselves as dynamic flexible guardians of our digital world Drawing on her experiences in the halls of the European Parliament and among Silicon Valley insiders Schaake offers a frightening look at our modern tech obsessed world and a clear eyed view of how democracies can build a better future before it is too late

GPT-3 Sandra Kublik, Shubham Saboo, 2022-07-11 GPT 3 NLP with LLMs is a unique pragmatic take on Generative Pre trained Transformer 3 the famous AI language model launched by OpenAI in 2020 This model is capable of tackling a wide array of tasks like conversation text completion and even coding with stunningly good performance Since its launch the API has powered a staggering number of applications that have now grown into full fledged startups generating business value This book will be a deep dive into what GPT 3 is why it is important what it can do what has already been done with it how to get access to it and how one can build a GPT 3 powered product from scratch This book is for anyone who wants to understand the scope and nature of GPT 3 The book will evaluate the GPT 3 API from multiple perspectives and discuss the various components of the new burgeoning economy enabled by GPT 3 This book will look at the influence of GPT 3 on important AI trends like creator economy no code and Artificial General Intelligence and will equip the readers to structure their imaginative ideas and convert them from mere concepts to reality

Ethics of Data and Analytics Kirsten Martin, 2022-05-12 The ethics of data and analytics in many ways is no different than any endeavor to find the right answer When a business chooses a supplier funds a new product or hires an employee managers are making decisions with moral implications The decisions in business like all decisions have a moral component in that people can benefit or be harmed rules are followed or broken people are treated fairly or not and rights are enabled or diminished However data analytics introduces wrinkles or moral hurdles in how to think about ethics Questions of accountability privacy surveillance bias and power stretch standard tools to examine whether a decision is good ethical or just Dealing with these questions requires different frameworks to understand what is wrong and what could be better Ethics of Data and Analytics Concepts and Cases does not search for a new different answer or to ban all technology in favor of human decision making The text takes a more skeptical ironic approach to current answers and concepts while identifying and having solidarity with others Applying this to the endeavor to understand the ethics of data and analytics the text emphasizes finding multiple ethical approaches as ways to engage with current problems to find better solutions rather than prioritizing one set of concepts or theories The book works through cases to understand those marginalized by data analytics programs as well as those empowered by them Three themes run throughout the book First data analytics programs are value laden in that technologies create moral consequences reinforce or undercut ethical principles and enable or diminish rights and dignity This places an additional focus on the role of developers in their incorporation of values in the design of data analytics programs Second design is critical In the majority of the cases examined the purpose is to improve the design and development of data analytics programs Third data analytics artificial intelligence and machine learning are about power The discussion of power who has

it who gets to keep it and who is marginalized weaves throughout the chapters theories and cases In discussing ethical frameworks the text focuses on critical theories that question power structures and default assumptions and seek to emancipate the marginalized

Next Generation eHealth Miltiadis Lytras, Abdulrahman Housawi, Basim Alsaywid, Naif Radi Aljohani, 2024-10-01 Next Generation eHealth Applied Data Science Machine Learning and Extreme Computational Intelligence discusses the emergence the impact and the potential of sophisticated computational capabilities in healthcare The title provides useful therapeutic targets to improve diagnosis therapies and prognosis of diseases as well as helping with the establishment of better and more efficient next generation medicine and medical systems Machine Learning as a field greatly contributes to next generation medical research with the goal of improving Medicine practices and Medical Systems As a contributing factor to better health outcomes the book highlights the need for advanced training of professionals from various health areas clinicians educators and social professionals who deal with patients Content illustrates current issues and future promises as they pertain to all stakeholders including informaticians professionals in diagnostics key industry experts in biotech pharma administrators clinicians patients educators students health professionals social scientists and legislators health providers advocacy groups and more With a focus on Machine Learning Deep learning and Neural Networks this volume communicates in an integrated fresh and novel way the impact of Data Science and Computational Intelligence to diverse audiences Allows medical scientists computer science experts researchers and health professionals to better educate themselves on machine Learning practices and applications and to benefit from the improvement of their knowledge skills Provides various tested and current techniques of health literacy as a determinant of health and well being Provides insight into international research successfully implemented in patient care and education through the proper training of health professionals Offers detailed guidance for diverse communities on their need to get timely trusted and integrated knowledge for the adoption of ML in healthcare processes and decisions professionals involved with healthcare to leverage productive partnerships with technology developers

AI and the Music Industry Richard Boateng, Sheena Lovia Boateng, Joseph Budu, 2025-05-02 In recent years the profound impact of artificial intelligence AI on fostering new forms of entrepreneurship has become increasingly evident Entrepreneurs worldwide are harnessing the capabilities of AI to develop innovative solutions and create businesses that address pressing challenges Despite the growing recognition of AI s potential there exists a crucial need to deepen understanding and awareness surrounding how individuals are leveraging AI to establish novel ventures Many entrepreneurs are pioneering initiatives that deploy AI technologies to tackle complex problems This challenge revolves around the imperative to explore document and comprehend the diverse ways in which AI is driving the emergence of new businesses solving real world problems and reshaping the entrepreneurial landscape It underscores the necessity for entrepreneurs researchers and the wider community to grasp the transformative role of AI in fostering innovation and enabling the creation of businesses dedicated to addressing societal issues Addressing this

challenge will contribute to a more comprehensive understanding of the synergy between AI and entrepreneurship paving the way for informed and impactful ventures that leverage the full potential of AI technologies This book delves into the transformative impacts of AI on the music industry It reviews trends in digital platforms and music research the integration of AI in music production and the experiences of artists and music publishers using AI It presents a comparative analysis of AI adoption patterns in the music industry and provides practical insights into the use of AI tools for music production and distribution Additionally it offers a detailed syllabus for training music industry stakeholders on harnessing AI technologies illustrating the significant role AI plays in shaping the future of music

Technology, Users and Uses Joan

Casas-Roma, Jordi Conesa, Santi Caballé, 2023-11-25 New technological advancements have always changed the way society and human relationships work New affordances created by technological tools inevitable modify and affect the way people interact with such tools as well as with one another and with the world within which this technology is embedded Technology Users and Uses explores and discusses ethical issues around the use of technology and AI by focusing on the way they affect individual social and global interactions The collection addresses topics including social networks public opinion fake news and information warfare digitalisation and datafication of society and individuals and transhumanism super intelligent machines and the technological singularity Technology Users and Uses aims to offer theoretical and practical guidelines and recommendations for regulators developers engineers and scientists as well as for researchers educators and scholars in the fields of technology and AI philosophy and sociology
