Since her death Sylvia Plath 1932-1963 has become an endless source of fascination for a wide audience ranging from readers of *The Bell Jar* her semiautobiographical novel to her groundbreaking poetry as exemplified by Ariel. Beyond her writing, however, interest in Plath has also been fueled in part by the tragic nature of her death. As a result, a steady stream of biographies of Plath have appeared over the last fifty-five years that mainly focus on her death or contain projections of an array of points of view about the writer. Until now, little sustained attention has been paid to the influences on Plath's life and work. What movies did she watch? Which books did she read? How did media shape her worldview? In this meticulously researched biography, Carl Rollyson explores the intricate web of literature, cinema, spirituality, psychology, and popular culture that profoundly influenced Plath's life and writing. At the heart of this biography is a compelling exploration of William Sheldon's seminal work *Psychology and the Promethean Will*, which Plath devoured in her quest for self-discovery and understanding. Through Plath's intense study of this work, readers gain unprecedented access to Plath's innermost thoughts, her therapeutic treatments, and the overarching worldview that fueled her creative genius. Through Sheldon as well as Plath's other influences, Rollyson offers a captivating survey of the symbiotic relationship between an artist and the world around her and offers readers new insights into the enigmatic mind of one of the most important writers of the twentieth century. New York Magazine, 1982-12-20. New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea. *Beyond Training* Ben Greenfield, 2014. Ironically, many people who appear to be fit and healthy on the outside struggle with health and lifestyle issues like insomnia, gas, bloating, low libido, aging too fast, injuries, performance plateaus, brain fog, and a basic lack of time for career, family, and friends. So this book supplies a step-by-step done-for-you guide to eliminating all these issues, helping you get the most out of life while still achieving amazing feats of physical performance. *Who Would Have Thought It?* María Amparo Ruiz de Burton, 1872. On a trip out West in the mid-1800s, a New England doctor saves a Mexican girl from the Indians and adopts her. She meets only hostility in his hometown until it is discovered she is wealthy when she becomes everyone's favorite. A critique of opportunism and hypocrisy by a Mexican writer, wife of a U.S. Army officer, and author of *The Squatter and the Don*. The novel is a reprint of the 1872 original. The New York Lancet, 1842.
