Interactive Video-On-Demand Systems T.P. Jimmy To, Babak Hamidzadeh, 2012-12-06 Interactive Video on Demand Systems Resource Management and Scheduling Strategies addresses issues in scheduling and management of resources in an interactive continuous media e.g. audio and video server. The book emphasizes dynamic and run time strategies for resource scheduling and management. Such strategies provide effective tools for supporting interactivity with on-line users who require the system to be responsive in serving their requests and whose needs and actions vary frequently over time. With an emphasis on responsiveness and transient performance, this book elaborates on dynamic strategies for managing and scheduling resources in Video on Demand Multimedia systems. Unlike previous books, this volume presents an unprecedented detailed analysis of the start-up and departure of streams. It gives a comprehensive evaluation of various techniques as workloads are varied in multiple dimensions including arrival rate, data rate, and length of play. Interactive Video on Demand Systems Resource Management and Scheduling Strategies collectively addresses multiple issues including QoS, throughput, responsiveness, and efficiency. The solutions discussed in this volume are particularly valuable to practitioners who are building digital library, interactive multimedia, and hypermedia servers. Interactive Video on Demand Systems Resource Management and Scheduling Strategies is an excellent reference for researchers, practitioners, and educators in the field of multimedia systems and may be used for advanced courses on multimedia systems and Video on Demand servers.

Compression for Great Video and Audio Ben Waggoner, 2013-02-11 Learn how to compress video and audio with optimal quality and minimal hassles. Renowned expert Ben Waggoner teaches you to improve the quality of your final content and develop effective workflows. Understand the basic concepts of vision and hearing, apply that knowledge in the context of compression, then move onto practical, applicable information for creating, editing, and compressing the best video and audio, whether you're delivering for the web, DVD, Blu-ray, phones, or beyond. Clear examples of how to make the best choices in real-world projects. Covers Mac and Windows products for a complete look at today's compression technologies. Watching TV Harry Castleman, Walter J. Podrazik, 2024-12-16 Castleman and Podrazik present a season-by-season narrative that encompasses the eras of American television from the beginning in broadcast through cable and now streaming. They deftly navigate the dizzying array of contemporary choices so that no matter where you start on the media timeline, *Watching TV* provides the context and background to this multi-billion dollar enterprise. Drawing on decades of research, the authors weave together personalities, popular shows, corporate strategies, historical events, and changing technologies, enhancing the main commentary with additional elements that include fall prime time schedule grids for every season, date box timelines, highlighted key text, and selected photos. Full of facts, first insights, and exploits from now back to the earliest days, *Watching TV* is the standard chronology of American television, and reading it is akin to channel surfing through history. The fourth edition updates the story into the 2020s and looks ahead to the next waves of change. This new edition is the first to also be available in a digital format.

De Gruyter Handbook of Media Technology and Innovation Richard A. Gershon, 2025-01-27 The *De Gruyter Handbook of Media Technology and Innovation* brings together scholars from around the world to provide key insights on emerging technology trends and issues related to the fields of media management, information technology, product design, planning, and digital lifestyle. This handbook is about the power of good ideas. It's about those business

enterprises government planners educators and entrepreneurs that have harnessed the power of good ideas to become real difference makers in the world we live in Keeping pace with fast paced technology change requires ongoing assessment and reassessment of the media management and technology fields to address important questions and emerging issues A major premise of this book is that given the complex and ever changing state of media technology we have a responsibility and obligation to engage in a broader interdisciplinary dialogue whose purpose is to understand the current and future state of media technology and innovation as well as to appreciate the social impact that such technologies have on business education and the general public Forecasting the future as any weatherperson or stock broker can tell you is a risky business But in this book we use the phrase the creative next step as a way to talk about the future and what we can expect in terms of the opportunities and challenges going forward
