Reading Randomised Controlled Trials Robert Savage, Amy Fox, Anneka Dawson, Helen Gray, Clare Huxley, 2025-03-03

In early 2021/22 the Flexible Phonics reading intervention a large scale randomised controlled trial took place in 118 schools in England and involved nearly 3 000 children This study aimed to provide valuable insights into the success of largely school based education trials The Flexible Phonics trial proved to be not only an important experiment in improving children s literacy but a case study in which the methodology of single randomised controlled trials in education can be considered Reading Randomised Controlled Trials investigates the complexities of conducting randomised controlled trials in the field of education and how they can be seen as a cultural activity The book emphasises the human operations decision making and actions that drive such trials which are often overlooked in published reports Through the case study of Flexible Phonics the book highlights the key differences between scaled educational trials and other types of trials such as pharmaceutical trials The additional focus on early childhood literacy is of significant educational importance particularly in the context of UK school partial closures in 2020 and 2021 during the Covid 19 pandemic Reading Randomised Controlled Trials is ultimately a unique resource on the implementation of randomised controlled trials in authentic school contexts and for the sustained improvement of practice in education

The Teach Like a Champion Guide to the Science of Reading Doug Lemov, Colleen Driggs, Erica Woolway, 2025-07-29 The most comprehensive and practical guide to understanding and applying the science of reading to improve literacy instruction After effectively teaching phonics in the early grades what does the science of reading tell us should happen in literacy classes The Teach Like a Champion Guide to the Science of Reading by Doug Lemov Erica Woolway and Colleen Driggs addresses the pressing challenges educators face in effectively incorporating the Science of Reading into their instruction once students already know how to decode By offering actionable guidance grounded in seven evidence based principles this book helps teachers elevate their instructional practices and better prepare students to be lifelong readers and thinkers Grounded in proven classroom instruction the book focuses on techniques that can allow teachers to use the science as effectively and actionably as possible The Teach Like a Champion Guide to the Science of Reading is enhanced with more than 50 video clips from the classroom and covers ways to practically apply the Science of Reading The book describes the often overlooked role of fluency in reading comprehension even into the high school years the profound importance of managing and socializing attention in an age of technology the central role of background knowledge in understanding text and the doubly important role of teaching vocabulary as a form of knowledge It adds a discussion of how writing can make students better readers and how important it is that reading classes focus on reading actual books great ones ideally And it closes with a discussion of close reading and the challenge of preparing students to rise to the challenge of complex text Inside the book An innovative approach to building and reinforcing background knowledge in reading Over 50 video demonstrations of effective teaching techniques Sample lesson plans and materials for

immediate classroom application The Teach Like a Champion Guide to the Science of Reading is essential for educators literacy coaches and administrators who aim to foster rigorous literacy instruction in their classrooms and schools This guide shows you how to implement techniques that ensure students find joy in reading and become better wiser more engaged and more motivated readers both in their classrooms and in their lives beyond

Training to Teach in Primary Schools Jane Medwell, 2015-03-19 Full of practical help and guidance this is a must have for primary trainees on school experience whether they are in a school based or university based teacher training programme It begins by helping trainees to plan their own journey through training and beyond Taking control of their own training in this way supports student teachers to approach the course with confidence and secure their first teaching job The book provides guidance on adapting to working in school observing planning and evaluating in school teaching on placement assessing monitoring and reporting on children s progress self evaluation and how to pre empt and resolve issues securing the first teaching job and succeeding in the NQT year For student teachers the experience of school based training is exciting but also challenging this book supports them throughout and prepares them for the journey ahead Student feedback on this book Having been on a variety of teaching placements myself I know just how daunting and overwhelming experiences in school can be at times even with a supportive mentor by your side Hence I felt that this book can smooth out and rectify those worries one may face during a school placement and offers the reader a realistic insight into school experiences In my opinion the most useful chapter by far is the Moving On chapter near the end of the book This explains how to conclude a school placement what to expect from an interview and even how to set out a CV for a teaching position This was not something I expected to find in this book however it was very much welcomed and is in fact a very important valuable part of the book This is the type of book you can buy on your very first day of teacher training and use well into your days as a newly qualified teacher Jasmin Primary Teacher Trainee University of Northampton
