

THE AMERICAN REVOLUTION

Directions: Check off each box and complete each task.

- ☐ Read the passage one time to find the gist.
- ☐ Read the passage again. Circle words that are interesting or that you don't know.
- ☐ Read the passage again. Underline important ideas.

Long ago, America was not its own country. It was part of Great Britain. The king made rules, but many people in America did not like those rules. They had to pay high taxes. They could not help make laws. People were angry. They wanted to be free. In 1775, a war began. It was called the American Revolution. Many people fought in the war. George Washington led the American army. He worked hard to help the people win. In 1776, a paper was written. It said America wanted to be free. That paper was the Declaration of Independence. The war lasted for eight years. In the end, America won. America became a new country. The people could make their own laws.

Highlight the evidence for each answer using the correct color. Then answer the question using a complete sentence.

- 1 [YELLOW] Who was the leader of the American army?

- 2 [PINK] What was the name of the war?

- 3 [BLUE] What important paper was written in 1776?

- 4 Why do you think people wanted to be free from the king?

ESL Readers and Writers in Higher Education Norman W. Evans, Neil J Anderson, William G. Eggington, 2015-06-12 ESL Readers and Writers in Higher Education describes the challenges ESL students in U S postsecondary institutions face when studying in a second language and offers suggestions for how teachers advisors tutors and institutions might provide support that meets the reading and writing needs of this very important student population Because the ESL profession as a whole including what professionals are doing in the classroom sits under the umbrella of an institutional response to a language related challenge some solutions aimed at helping students achieve optimal proficiency lie outside of the classroom As such this book is based on the assertion that language development support is not the sole responsibility of language teachers Everyone on campuses that hosts ESL students bears some responsibility for these students language development Chapters are therefore intentionally adapted to appeal to a wide variety of readers from classroom teachers and teachers in training to admissions officers academic advisors

and international student advisors **The Semantic Web Explained** Péter Szeredi, Gergely Lukácsy, Benk&, 2014-09-11

The Semantic Web is a new area of research and development in the field of computer science that aims to make it easier for computers to process the huge amount of information on the web and indeed other large databases by enabling them not only to read but also to understand the information Based on successful courses taught by the authors and liberally sprinkled with examples and exercises this comprehensive textbook describes not only the theoretical issues underlying the Semantic Web but also algorithms optimisation ideas and implementation details The book will therefore be valuable to practitioners as well as students indeed to anyone who is interested in Internet technology knowledge engineering or description logics Supplementary materials available online include the source code of program examples and solutions to selected exercises

Author Representations in Literary Reading Eefje Claassen, 2012-02-15 Author Representations in Literary Reading investigates the role of the author in the mind of the reader It is the first book length empirical study on generated author inferences by readers of literature It bridges the gap between theories which hold that the author is irrelevant and those that give him prominence By combining insights and methods from both cognitive psychology and literary theory this book contributes to a better understanding of how readers process literary texts and what role their assumptions about an author play A series of experiments demonstrate that readers generate author inferences during the process of reading which they use to create an image of the text s author The findings suggest that interpretations about the author play a pivotal role in the literary reading process This book is relevant to scholars and students in all areas of the cognitive sciences including literary studies and psychology Reading Comprehension Camille L. Z. Blachowicz, Donna Ogle, 2008-05-05 This practical resource and widely used text presents a wealth of research based approaches to comprehension instruction The authors offer specific classroom practices that help K 9 students compare and evaluate print and online sources develop vocabulary build study and test taking skills and become motivated readers
