Storytelling in Marketing and Brand Communications S M A Moin, 2024-07-12 Storytelling has redefined marketing from a brand monologue to brand consumer dialogues conversations and co-creation Drawing on interdisciplinary narrative literature and the perspectives of legendary practitioners this book reveals the art of storified brand communications and how storytelling affects our brains using consumer psychology and neuroscience insights With theories practice application and several conceptual models tools and techniques this book invites researchers academics marketing practitioners and students to decode the art of storytelling and join the debate on how storytelling transforms the discourse of marketing and brand communications Ancient people gathered around fires to bond and tell stories passing wisdom from generation to

generation Likewise we tell stories through social media platforms that transcend time and space Moreover digital storytelling in multiple forms and formats has transformed marketing ushering in an era of a creative renaissance by infusing the imagination of human minds with the power of technology In this context the book positions brand storytelling as an artistic science evolving in the content creators playground that fosters brand consumer conversation and co creation Although the future of storytelling is mysterious the author argues that human minds will continue to dominate machines creating marketing magic at the intersection of narrative art and technological science With a balance of theories and practice including conceptual models tools and techniques this book offers valuable insights allowing researchers academics as well as astute marketing practitioners and students to follow how the art of storytelling empowered by science and technology is transforming the discourse of brand communications in the imagination age Lead. Care. Win. Dan

Pontefract,2020-09-29 Dan Pontefract is on a mission to change the world of work Lead Care Win is his fourth book and like the previous three is the product of relentless focus observations and research that have led him to define 9 insightful yet super practical leadership lessons His latest thinking will help you become a more caring and engaging leader one that will fully and completely understand the critical importance of crafting meaningful respectful relationships among all your stakeholders Every human interaction is crucial Every exchange can be mutually beneficial These 9 leadership lessons center on your willingness to improve how you treat people a call for meaningful change to Be relatable and empathetic Act not out of ego but out of purpose Share knowledge to build a wise organization Stay present and attentive to the needs of others Embrace change and the opportunity for growth it offers Stay curious and adopt lifelong learning Think and act with clarity Commit to balance and inclusivity in all your dealings Act with humility and thoughtfulness The bottom line is that when you care enough to champion others the workplace becomes happily infectious and the organization benefits in more ways than one It s time to care Full potential is possible **Revolutionizing Business Practices Through Artificial Intelligence**

and Data-Rich Environments Gupta, Manisha,Sharma, Deergha,Gupta, Himani,2022-09-07 Throughout the world artificial intelligence is reshaping businesses trade interfaces economic activities and society as a whole In recent years scholarly research on artificial intelligence has emerged from a variety of empirical and applied domains of knowledge Computer scientists have developed advanced deep learning algorithms to leverage its utility in a variety of fields such as medicine energy travel education banking and business management Although a growing body of literature is shedding light on artificial intelligence enabled difficulties there is still much to be gained by applying fresh theory driven techniques to this vital topic Revolutionizing Business Practices Through Artificial Intelligence and Data Rich Environments provides a comprehensive understanding of the business systems platforms procedures and mechanisms that underpin different stakeholders experiences with reality enhancing technologies and their transformative application in management The book also identifies areas in various business processes where artificial intelligence intervention would not only transform the

business but would also make the business more sustainable Covering key topics such as blockchain business automation and manufacturing this reference work is ideal for computer scientists business owners managers industry professionals researchers academicians scholars practitioners instructors and students Daily Graphic Ransford Tetteh,2010-02-26
