Reality, Reason, and Rights Douglas B. Rasmussen, Aeon J. Skoble, Douglas J. Den Uyl, 2011-12-16 Tibor R Machan one of the most prolific and wide ranging philosophers of our time has been known internationally for decades through his public speaking opinion columns and of course his scholarly writing This collection of essays seeks to explore Machan's philosophical ideas by considering some of the basic issues with which he has been concerned throughout his long and highly productive career The essays range from those concerned with the nature of reality and knowledge to those dealing with the nature of the political legal order Topics such as the character of human nature free choice and responsibility the justification of individual rights and the place of justice in the contemporary welfare state among other basic issues are discussed in these essays Because Machan himself dealt with questions of central importance the essays should appeal to a wide range of interests and disciplines in philosophy and related fields But the essays are also written by people accomplished in their own right and thus seek not only to comment on Machan but to make their own contribution to enduring philosophical issues The volume should be of value to both students and faculty alike **Geschwisterliche**

Gerechtigkeit Jochen Bojanowski, 2023-05-17 Geschwisterlichkeit wird in der Tradition des politischen Liberalismus häufig als moralischer Wert verstanden der über das Ideal der Gerechtigkeit hinausgeht Im Unterschied dazu argumentiert Jochen Bojanowski für ein neues Verständnis Demnach sind wir im politischen Kontext zueinander geschwisterlich eingestellt wenn wir einen gesellschaftlichen Kooperationsrahmen bevorzugen in dem bloße Glücksunterschiede nicht in distributive Vorteile umgemünzt werden können Ausgehend von dieser Idee entwickelt Bojanowski eine Theorie der Gerechtigkeit der zufolge Geschwisterlichkeit einen konstitutiven Teil von Gerechtigkeit darstellt **Libertarianism** Eric Mack, 2018-10-08 The

essence of libertarianism is the view that coercive political institutions such as the state are justified only insofar as they function to protect each person's liberty to pursue their own goals and well being in their own way Libertarians accordingly argue that any attempt to enforce top down concepts of social justice or economic equality are fundamentally misconceived In this book leading expert Eric Mack provides a rigorous and clear account of the philosophical principles of libertarianism He offers accounts of three distinctive schools of libertarian thought which he labels the natural rights approach the cooperation to mutual advantage approach and the indirect consequentialist approach After examining the historical roots of these approaches in the thought of figures such as John Locke and David Hume he provides illuminating accounts of the foundational arguments and the theories of economic justice offered by Robert Nozick and F A Hayek He then examines a range of other debates such as those surrounding the nature of the minimal state and those between critics and defenders of libertarianism This book will be essential reading for anyone interested in political philosophy political ideologies and the nature of liberty and state authority from students and scholars to general readers **The Oxford Handbook of Political**

Philosophy David Estlund, 2012-05-21 Even though political philosophy has a long tradition it is much more than the study of

old and great treatises Contemporary philosophers continue to press new arguments on old and timeless questions but also to propose departures and innovations The field changes over time and new work inevitably responds both to events in the world and to the directions of thought itself This volume includes 22 new pieces by leaders in the field on both perennial and emerging topics of keen interest to contemporary political philosophers In addition to longstanding issues such as Authority Equality and Freedom and Democracy there are articles on less classical topics such as Race Historical Injustice Deliberation Money and Politics Global Justice and Ideal and Non Ideal Theory All of the pieces combine clarity and accessibility with a top scholar s critical and original point of view The introductory essay briefly situates this snapshot of the state of the art in a broader view of developments in political philosophy in the last 40 years and looks forward to future developments Students and scholars alike will find the pieces to be valuable not only surveys but as provocations to think further about the questions puzzles and practical problems that animate recent work in political philosophy The issues will be of interest to many working in philosophy political science law economics and more

The Libertarian Idea Jan Narveson, 2001-03-05

Libertarianism is both a philosophy and a political view The key concepts defining Libertarianism are Individual Rights as inherent to human beings not granted by government a Spontaneous Order through which people conduct their daily interactions and through which society is organized independent of central government direction the Rule of Law which dictates that everyone is free to do as they please so long as they do not infringe upon the rights of others a Divided and Limited Government checked by written constitution Free Markets in which price and exchange is agreed upon mutually by individuals Virtue of Production whereby the productive labour of the individual and any translation of that labour into earnings belongs by right to the individual who should not have to sacrifice those earnings to taxes and Peace which has throughout history most commonly been disrupted by the interests of the ruling class or centralized government

Social Theory and Practice ,2000 [Philosophical Writings](#) ,1999 **Ownership and Justice: Volume 27, Part 1** Ellen Frankel Paul, Fred D. Miller, Jr, Jeffrey Paul, 2010-05-10

The institution of private property lies at the heart of contemporary Western societies But what are the limits of property ownership Do principles of justice require some measure of governmental redistribution of property in order to relieve poverty or to promote greater equality among citizens And what do principles of justice whether egalitarian or libertarian have to say about individuals ownership of their own talents and the products of their labor and the about the initial acquisition of land and natural resources The essays in this volume written by eleven prominent political and moral philosophers address these questions and explore related issues A number of essays consider the theoretical foundations of property ownership asking how the rights of individuals to acquire property can be justified and how extensive these rights are Some essays focus on the concept of self ownership discussing how the individual s right to control his own mind body and actions relates to his right to gain control over extrapersonal objects and resources Other essays look at connections between property ownership and various values including democratic political participation

and equality of wealth and opportunity Still others examine issues of ownership and justice that relate to the justification of liberal political institutions or the implementation of centralized social and economic planning The Theory and Practice of Self-ownership Robert Smallman Taylor, 2002 *Identity and Difference in Aristotle's Treatment of Property* Jill Sari Frank, 1993 Justice in Political Philosophy Will Kymlicka, 1992 This two volume set presents the key literature on the contending schools of justice which have dominated contemporary political philosophy Justice in Political Philosophy focuses in particular on the wide range of positions and debates which have emerged since the publication of John Rawls's A Theory of Justice in 1971 Each view is presented through a representative selection of the major articles by both its proponents and critics The schools covered include utilitarianism liberal egalitarianism libertarianism and their Marxist communitarian and feminist critics The authors represented include such influential figures as Rawls Nozick Dworkin Cohen Gauthier Harsanyi Barry Sandel MacIntyre Gilligan and Mackinnon The editor's introduction explores the interrelations between these diverse theories and shows how there are considerable convergences as well as disagreements in the contemporary debates over justice **The Philosophical Review** Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 2010 An international journal of general philosophy *Between Exploitation and Communism* Robert J. van der Veen, 1991 *New Left Review*, 1985 **Continuum Encyclopedia of British Philosophy** A. C. Grayling, Andrew Pyle, Naomi Goulder, 2006-06-28 No Marketing Blurb *Modern Theories of Exploitation* Andrew Reeve, 1987-10 Theories of exploitation have provided a critical category in social theory as central issues in both liberalism and Marxism Going beyond the traditional contention between liberal and Marxist theorists this collection of original essays provides a thorough introduction to the main themes in modern notions of exploitation and explores theories about the circumstances in which exploitation occurs The contributors analyze some of the classic theorists such as the writers of the Scottish Enlightenment the Ricardian Socialists mutualists and Marx They bring forward the concerns of these theorists by contrasting contemporary liberal theories and theories based on the idea that socialism or communism is ethically superior to capitalism Comprehensive cogent and concise this valuable volume will be essential reading for theorists and their students in both sociology and political science a generally stimulating collection for those engaged with the issue Political Studies This collection provides a theoretically and historically balanced comprehensive scope of its field of political economy An important addition Choice This collection must find a place on the bookshelf of anyone working on problems of exploitation and justice Ethics This book examines carefully and challengingly many aspects of the definition and theory of exploitation It is well worth reading and pondering Science Society **Global Political Philosophy** Louis P. Pojman, 2003 This up to date text treats political philosophy and issues including the terrorist attacks of September 11 from a global perspective considering the virtues of both nationalism and cosmopolitanism As part of his aim of describing a comprehensive global political philosophy Pojman devotes considerable attention to a defense of ethical objectivism over its ubiquitous rival ethical

relativism *Respecting Persons in Theory and Practice* Jan Narveson, 2002-02-18 Respecting Persons in Theory and Practice is a collection of essays of the moral and political philosophy of Jan Narveson. The essays in this collection share a consistent theme running through much of Narveson's moral and political philosophy: namely, that politics and morals stem from the interests of individual people and have no antecedent authority over us. The essays in this collection, in various ways and as applied to various aspects of the scene, argue that the ultimate and true point of politics and morals is to enable us to make our lives better according to our varied senses of what that might mean.
