Disputed Territories and International Criminal Law Simon McKenzie, 2019-11-08 It has been over 50 years since the beginning of the Israeli occupation of the Palestinian Territories It is estimated that there are over 600 000 Israeli settlers living in the West Bank and East Jerusalem and they are supported protected and maintained by the Israeli state This book discusses whether international criminal law could apply to those responsible for allowing and promoting this growth and examines what this application would reveal about the operation of international criminal law It provides a comprehensive analysis of how the Rome Statute of the International Criminal Court could apply to the settlements in the West Bank through a close examination of the potential operation of two relevant Statute crimes first the war crime of transfer of population and second the war crime of unlawful appropriation of property It also addresses the threshold question of whether the law of occupation applies to the West Bank and how the principles of individual criminal responsibility might operate in this context It explores the relevance and coherence of the legal arguments relied on by Israel in defence of the legality of the settlements and considers how these arguments might apply in the context of the Rome Statute The work also has wider aims raising questions about the Rome Statute's capacity to meet its aim of establishing a coherent and legally effective system of international criminal justice **Information Systems Theory** Yogesh K. Dwivedi, Michael R. Wade, Scott L.

Schneberger,2011-09-21 The overall mission of this book is to provide a comprehensive understanding and coverage of the various theories and models used in IS research Specifically it aims to focus on the following key objectives To describe the various theories and models applicable to studying IS IT management issues To outline and describe for each of the various theories and models independent and dependent constructs reference discipline originating area originating author s seminal articles level of analysis i e firm individual industry and links with other theories To provide a critical review meta analysis of IS IT management articles that have used a particular theory model To discuss how a theory can be used to better understand how information systems can be effectively deployed in today s digital world This book contributes to our understanding of a number of theories and models The theoretical contribution of this book is that it analyzes and synthesizes the relevant literature in order to enhance knowledge of IS theories and models from various perspectives To cater to the information needs of a diverse spectrum of readers this book is structured into two volumes with each volume further broken down into two sections The first section of Volume 1 presents detailed descriptions of a set of theories centered around the IS lifecycle including the Success Model Technology Acceptance Model User Resistance Theories and four others The second section of Volume 1 contains strategic and economic theories including a Resource Based View Theory of Slack Resources PortfolioTheory Discrepancy Theory Models and eleven others The first section of Volume 2 concerns socio psychological theories These include Personal Construct Theory Psychological Ownership Transactive Memory Language Action Approach and nine others The second section of Volume 2 deals with methodological theories including Critical Realism Grounded Theory Narrative Inquiry Work System Method and four others Together these theories provide a rich tapestry of knowledge around the use of theory in IS research Since most of these theories are from contributing disciplines they provide a window into the world of external thought leadership *Intergenerational Justice* Axel Gosseries,Lukas H. Meyer,2009-05-21 Is it fair to leave the next generation a public debt Is it defensible to impose legal rules on them through constitutional constraints From combating climate change to ensuring proper funding for future pensions concerns about ethics between generations are everywhere In this volume sixteen philosophers explore intergenerational justice Part One examines the ways in which various theories of justice look at the matter These include libertarian Rawlsian sufficientarian contractarian communitarian Marxian and reciprocity based approaches In Part Two the authors look more specifically at issues relevant to each of these theories such as motivation to act fairly towards future generations the population dimension the formation of preferences through education and how they impact on our intergenerational obligations and whether it is fair to rely on constitutional devices *Social Anarchism and the Rejection of Moral Tyranny* Jesse Spafford,2023-11-02 This book provides an analytical defence of egalitarian anarchism arguing that there is a libertarian path to socialist conclusions Regulatory Gaps in Baltic Sea Governance Henrik Ringbom,2018-04-04 The focus of this publication is the uniqueness of the Baltic Sea from a legal perspective and the regulatory voids that result

from the multiple layers of regulation this area is subjected to up to six layers of regulation general international law regional conventions EU law national laws local and municipal rules plus a whole range of non binding norms and other soft law arrangements act in parallel However a large number of rules or regulatory layers does not in itself ensure effectiveness or consistency When the regulatory landscape is approached from the point of view of individual substantive topics it is apparent that the norms of different regulatory layers entail both overlaps gaps and uncertainties differently for each topic This publication addresses a selection of topics that are decidedly international in nature but for which current international and EU rules include important gaps or uncertainties In addition to presenting a set of legal analyses of topical issues for the region which in itself is a meritorious objective in view of the relative scarcity of legal studies with a focus on the Baltic Sea the publication also seeks to analyze the regulatory anatomy of the selected issues in more detail Through the legal analyses the chapters explore how regulatory gaps are formed how they are filled how the rules of the different layers work together and interact with each other in the selected areas Accordingly the secondary ambition is to explore through the chapters whether more general conclusions can be drawn about the nature of the regulatory gaps and multi layerism in order to produce a better understanding of how regulations on multiple levels operate in practice German Civil Code Volume I Gerhard Dannemann,Reiner Schulze,Jonathon Watson,2020-10-05 The Bürgerliches Gesetzbuch is the very backbone of German civil law Its legal concepts and principles are essential for the understanding of the law of one of Europe's major legal systems In its first edition this article by article commentary covers Books 1 to 3 of the German Civil Code General Part Law of Obligations Law of Property The commentary reflects the law on 31 December 2018 and includes translations of legislation until 31 December 2019 The clear and uniform structure of each commentary allows for easy navigation through the complex legal concepts and challenging terminology Through concise explanations the abstract articles are brought to life and their meaning becomes accessible to lawyers legislators students scholars and translators This commentary is edited by Professor Dr Gerhard Dannemann Humboldt University of Berlin and Professor Dr Reiner Schulze University of Münster The contributors to the commentary are academics and practitioners in the field of civil and comparative law Socialism and Commodity Production: Essay in Marx Revival Paresh Chattopadhyay,2018-08-07 Socialism is a word that is now habitually taken to refer to a particular social system that prevailed in different parts of the globe during the twentieth century This system was defined primarily by single party rule with public mainly state ownership of the means of production along with a centrally planned economy Its material base was generalised commodity production The spokespersons of this system claim that this socialism was derived from Marx Paresh Chattopadhyay's Socialism and Commodity Production argues the falsity of this claim On the basis of a comprehensive study of Marx's own texts as well as a detailed engagement with a wide variety of theorists of socialist economics it shows that Marx's socialism constituted an Association of free individuals in which private ownership the commodity wage labour and the state have no place *Railroad Trainmen's Journal* ,1899

Business Laws [CA Foundation] PPS Gogna, The book has been primarily designed for the students of C A Foundation course for the subject Business Laws Written in concise and self explanatory style this book provides conceptual knowledge and understanding of various acts such as The Indian Contract Act 1872 The Sale of Goods Act 1930 The Indian Partnership Act 1932 Further chapters on The Limited Liability Partnership Act 2008 and The Companies Act 2013 have also been incorporated in the book keeping in view the new syllabus

Land Law in African Countries Oleg Igorevich Krassov, 2022 The monograph studies the key aspects of land law of African countries customary land tenure laws customary rights to water forest cattle grazing the influence of colonial epoch on customary land tenure systems and the rights of African women to land Characteristic features of land and water rights under Islamic law are provided The current state of formal land law in the countries of North West Central and East Africa is analyzed including the following the right of ownership to land and other natural resources types of various rights to land and natural resources and the relationship of formal law and customary land tenure systems For students graduate students and teachers of law schools employees of legislative executive and judicial authorities as well as for all those interested in land civil law and comparative legal studies

Definition in the Criminal Law Andrew Halpin, 2004-10-13 In recent years a number of key terms of the criminal law have seemed to defy definition Scepticism over the possibility of defining basic concepts and identifying general principles has been voiced by both judges and academic commentators This raises broad issues of theoretical interest but also touches on such practical concerns as the efforts made by the Law Commission to reform the law as well as wider proposals for the codification of criminal law Furthermore the Human Rights Act incorporates a requirement of legality under Article 7 of the ECHR whose scope is clearly connected to our understanding of how criminal offences are defined This book undertakes an investigation of the role and scope of definition within the criminal law set within a wider examination of the nature of legal materials and the diversity of perspectives on law It offers a fascinating account of how the rules and principles found within legal materials provide opportunities for responding to rather than merely following the law In the light of this account the book takes issue with some of the established views on the roles of judges and academics and in a series of case studies concerning the definition of theft and changes to the definition of recklessness recently introduced by the House of Lords in *R V G* explores the intimate connection between the use of legal materials and the practice of definition More specific objectives of the book involve providing a more rigorous assessment of the serious challenge made by a critical perspective on the criminal law challenging the conventional intellectual apparatus of the criminal law demonstrating how general theoretical insights on the process of definition can assist with the practical problems of defining criminal offences clarifying the uses of definition in the work of the judiciary and law reformers and determining realistic expectations for the principle of legality within the criminal law

Criminal Law Claire de Than, Russell Heaton, 2013-05-23 A comprehensible evaluation of the subject written in an engaging manner and illustrated with running examples showing how the law works in practice
