Musical Theatre Education and Training in the 21st Century Jessica O'Bryan, Scott D. Harrison, 2024-09-17 Musical Theatre Education and Training in the 21st Century presents a wide range of viewpoints on the musical theatre profession. It brings together research from the UK, US, Australia and beyond, providing an essential resource for educators, students and all those involved in training for musical theatre. The research draws on best practice from creatives, producers, practising artists and the academy to reveal a multiplicity of approaches and educational pathways for consideration by performers, educators, institutions and the profession. The book goes beyond the key elements of performance training in singing, dancing and acting to explore adjacent creative and business skills along with some of the more recent and challenging aspects of the profession such as diversity of representation both on and off stage, building safe working environments and managing mental and physical health and wellbeing. The authors incorporate information from over 100 interviews with everyone from emerging performers to leading professionals and explore the practicalities of pre-professional training, skills development and curricular design alongside the broader attributes required in preparation for the profession. This book offers vital insights into how musical theatre practitioners can best be prepared to make their way in the field now and in the future. **Labor Education Guide**, 1943 **More than Music Lessons** Merlin B. Thompson, 2022-02-21 Award-winning music educator Merlin B. Thompson invites today's teachers to link their teaching with notions of humanity and create success by building on what students naturally bring to their own musical journey. Filled with over fifty practical and inspirational teaching tips, *More than Music Lessons* is a must-read for every genre of music studio teacher: vocal, instrumental, academic, traditional, individual, group, Suzuki, exam-based and online. A four-part framework gets right to the heart of the matter: Parents understanding the complexity of parental involvement and students' home life; Practicing an adventure in autonomy, fluency, purpose, relatedness, reflection and listening; Projects amplifying students' musical persona with non-performance projects; Character engaging students' inborn authentic character to ensure meaningful musical participation. Grounded in research yet enriched with real-life experiences and frequently asked questions, *More than Music Lessons* offers a comprehensive view of student-centered teaching where teachers share rather than direct students' musical explorations. This book provides resources for teachers who work with diverse student demographics and sheds light on how teachers may thoughtfully incorporate students' sense of self, personal and world views, culture, individuality and spirituality as anchors for their unfolding and unique musical journeys. *More than Music Lessons* will help studio teachers support and inspire their students for a lifetime of genuine and joyful music making. *Teaching the Diary of Anne Frank* Susan Moger, 1999-02 This sensitively written well-researched guide provides meaningful background information, powerful primary source documents and other materials to help students understand the Diary in the context of the Holocaust. Includes a step-by-step guide, background information, journaling ideas, an Anne Frank family album, timeline, poetry, prose, photos, reproductions of key historical
