

6) Defining Activities

Activities are the main work elements created under the suitable WBS and are arranged in sequence of executions and further linked by the relationships. Example- under the WBS Substructure the Activity will be named as Foundation which will be further classified in sub activities like excavation, PCC, Shuttering-ROC-DE shuttering etc.

7) Relationships between Activities

Activities are linked together by the set of relationships to form a network of activities which will give the total project duration.

- Finish to start (FS) relationship.
- Finish to finish (FF) relationship.
- Start to start (SS) relationship.
- Start to finish (SF) relationship

8) Dates & Duration

Duration for each activity are feed manually for each activity which will then when linked will give the start date and finish dates and the whole duration of the project.

9) Cost

Cost of activity are assigned by allocating the resources demanded by the activity along with their quantity and unit rates.

10) Baseline

Baseline is the original path of project which will be used as benchmark to track the actual progress in comparison with original path to see whether it is on schedule or delayed or early.

11) Schedule and Updates

- If the project is progressing exactly as planned, then only needed to estimate progress.
- If the project is not progressing as planned many activities are starting out-of-sequence, actual resource use is exceeding planned use, and then update should be done for activities and resources individually.
- Most projects contain some activities that progress as planned and some which do not. In this case, the best method is to combine the two updating methods.

12) Tracking

It is a monitoring tool for monitoring the progress of project in terms of the cost, resource allocation.

Not e- Images are for representative purpose only because of informal Confidentiality agreement between authors and Pune Metro Rail Corporation.

E. Added benefits of Web Based Primavera P6 in Updating and tracking of Project

- Infrastructure project are different than any other projects as they are located in remote locations and headquarters are located within a city.
- In this case, web based primavera P6 gives advantage of remotely updating and tracking of project through cloud based server.
- Primavera P6 has password and username entry makes it secure and the access is controlled.
- Team members can improve collaboration by working independently and concurrently within the system.
- It will decrease the maintenance and support cost.
- In this Pune Metro Rail Project, NCC has been awarded for civil work for corridor-2 which is almost 16km in length.
- The Pune Metro Rail Corporation has their head office located at Koregaon Park.
- NCC is one of the many contractors. NCC has their pre-cast viaduct casting yard located in Hinjewadi Area. Therefore the job site- Headquarters- casting yard is about 32km route.
- Web based P6 created one common point where it allows to monitor the project remotely.
- It save valuable human resources and unnecessary efforts and time.
- It records the access log and hence the process becomes transparent.

P6 Web Based Manual

Scott C. Dulebohn

P6 Web Based Manual:

Decoding **P6 Web Based Manual**: Revealing the Captivating Potential of Verbal Expression

In an era characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its ability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**P6 Web Based Manual**," a mesmerizing literary creation penned by a celebrated wordsmith, readers attempt an enlightening odyssey, unraveling the intricate significance of language and its enduring impact on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
