Learning Disabilities Nirbhay N. Singh, Ivan L. Beale, 2012-12-06 It is important to reaffirm the reality of the learning disabilities LD phenomenon as a condition that imposes genuine constraints on a student's ability to function and not as some chimerical entity defined by an ever changing political situation Perceptual memory attention linguistic social cognitive and neuropsychological factors are an integral part of LD By mapping out in great detail and with much new data the acquired knowledge on learning disabilities both empirical and theoretical this book unravels many mysteries This book is a landmark in learning disabilities studies and it lays down solid foundations for future research and practical intervention in the field

Inside High School Reform Jordan E. Horowitz, California Academic Partnership Program, 2005 What happens when some of the lowest performing high schools in the state of California make a commitment to reform themselves This book goes inside the reform efforts of 28 high schools where educators collaborated to fundamentally change expectations for students in effect to prepare all students for postsecondary education By challenging the status quo teachers and administrators set out to strengthen their delivery of services so that all students especially those traditionally denied access to college would leave their care with more options for college and for life Reported here are the conclusions from formal evaluations over the past ten years of high school reform shepherded by the California

Academic Partnership Program CAPP CAPP schools are each funded for three to five years with grants of about 100 000 a year to make fundamental changes for their students As these schools discovered not all changes are equally valuable but some are simply essential In the words of the educators themselves and through the perspectives of CAPP advisors who monitored the programs Inside High School Reform lays out some of the apparently universal lessons of making the reform changes that matter
