Artificial Gravity Eleanor Hawking, AI, 2025-02-17 Artificial Gravity explores the compelling need for simulated gravity in space travel and habitation addressing the detrimental effects of weightlessness on astronaut health such as bone density loss and muscle atrophy The book examines various methods for creating artificial gravity focusing on rotating structures and linear acceleration It explains how centripetal force in rotating habitats can

mimic gravity and analyzes the challenges of sustained acceleration for interplanetary travel making complex physics accessible to a broad audience The book progresses systematically beginning with a review of gravity research and the biological impacts of microgravity Later chapters delve into the physics of rotation linear acceleration and physiological considerations evaluating the body's response to these artificial environments It uniquely connects physics engineering medicine and space exploration to provide a comprehensive understanding of artificial gravity's potential including space tourism and settlements on other planets

Pastrami on Rye Ted Merwin, 2015-10-06 The history of an iconic culinary institution Winner of the 2015 National Jewish Book Award in Education and Jewish Identity from the Jewish Book Council For much of the twentieth century the New York Jewish deli was an iconic establishment in both Jewish and American life As a social space it rivaled and in some ways surpassed the synagogue as the primary gathering place for the Jewish community In popular culture it has been the setting for classics like When Harry Met Sally And today after a long period languishing in the trenches of the hopelessly old fashioned it is experiencing a nostalgic resurgence Pastrami on Rye is the first full length history of the New York Jewish deli The deli argues Ted Merwin reached its full flowering not in the immigrant period as some might assume but in the interwar era when the children of Jewish immigrants celebrated the first flush of their success in America by downing sandwiches and cheesecake in theater district delis But it was the kosher deli that followed Jews as they settled in the outer boroughs of the city and that became the most tangible symbol of their continuing desire to maintain a connection to their heritage Ultimately upwardly mobile American Jews discarded the deli as they transitioned from outsider to insider status in the middle of the century Now contemporary Jews are returning the deli to cult status as they seek to reclaim their cultural identities Richly researched and compellingly told Pastrami on Rye gives us the surprising story of a quintessential New York institution

Star Bound Emily Carney, Bruce McCandless (III), 2025 Star Bound is a book for anyone who wants to learn about the American space program but isn't sure where to start First and foremost it's a history short sweet and straightforward From rocketry pioneer Robert Goddard's primitive flight tests in 1926 through the creation of NASA from our first steps on the moon to construction of the International Space Station and planning a trip to Mars readers will meet the people and projects that have put the United States at the forefront of space exploration Along the way they'll learn How the United States beat the Soviets to the moon Why astronauts float in space Hint It's not for lack of gravity How fast rockets have to go to stay in orbit around Earth How we can look back in time through a space telescope With technology evolving and humanity's understanding of the universe expanding we are entering an exciting period of space exploration Authored by two veteran space writers with unique insights into the topic Star Bound offers up the story of Americans in space with a focus on the cultural and societal contexts of the country's most important missions rather than engineering and technical minutiae Vibrant positive and humorous Star Bound is packed with facts and stories for novice space fans And sprinkled in with the history are lists of the greatest space songs books movies and more all designed to make
