[A COMPREHENSIVE GUIDE FOR CAREGIVERS IN DAY-CARE SETTINGS](#) Nettie Becker, Paul Becker, 1999-01-01 An increasing number of people in our country today acknowledge the fact that there is an enormous crisis in the field of early child care The first chapter of this book examines the major reasons for the crisis and why the economic reality for most American households will cause the problem to continue to grow in the coming years Following this the second chapter discusses the criteria of a good early child care setup

based on professional literature in the field and the author's experience. The remainder of the book addresses the serious problem that most day care workers are very poorly trained for their jobs. Six chapters are devoted to providing a practical guide for people who work with young children. They discuss from current research in the field but without using technical language current practical methods of working with children at risk or those who may potentially be at risk. The focus is on working with children in groups, helping day care workers and substitute parents to minimize or remediate the at-risk factor in the children in their care. The book also addresses parents of these children and emphasizes the need for cooperation between day care workers and them so that child care providers can effectively convey the skills presented here. There is also a chapter on approaches to working with special children such as children with autism and those with physical or neurological impairments. This informative and sensitive book will be useful in advancing the training of workers in infant and early child care settings.

Committee also considers the role of the Minister for the Cabinet Office and state that the responsibilities of the post are currently poorly defined They recommend that the Government reassess the functions of the Minister for the Cabinet Office to ensure that the postholder s responsibilities accurately reflect the strategic role the Cabinet Office plays in delivering government policy The report goes on to consider the approach taken to changes to the machinery of government and the change in the role and function of the Lord Chancellor which took place during Tony Blair s time as Prime Minister The Committee states that the process of change involved wholly inadequate consultation both within government and with the senior judiciary and further states that there was no justification for failure to consult on these important reforms The Committee recommends that in future the Cabinet Office should play a formal role in investigating any machinery of government changes particularly those with constitutional implications
