The Digital Future of English Simone Murray, 2025-07-18 More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book s imminent demise presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline s founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually

oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology s impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future

Thriller Market Data Ocean Ecosoft,AI,2025-02-19 Thriller Market Data offers a deep dive into the thriller genre providing a data driven analysis of publishing industry statistics to reveal the reader preferences and market trends that drive success It explores how understanding reader preferences beyond demographics and identifying actionable market trends are vital for strategic decision making The book uniquely places current market dynamics within a historical context of genre fiction and consumer behavior examining the evolution of thriller subgenres alongside shifts in reader habits including digital consumption The book dismantles the myth of relying solely on intuition advocating for data informed decisions from manuscript acquisition to marketing For example A B testing methodologies are used to pinpoint causal relationships between marketing strategies and sales performance Beginning with core concepts of market analysis the book progresses by exploring key performance indicators analyzing successful subgenres and discussing the impact of digital platforms It culminates with practical strategies for authors publishers and agents

Formen von Literaturvermittlung und -kritik in den sozialen Medien Carolin Zoe Contomichalos,2025-07-28 Wie funktionieren die Systeme BookTube und BookTok und wer sind die Akteure Welche Formate nutzen Buchblogger innen auf BookTube und BookTok um sich ber Literatur auszutauschen Inwiefern findet auf BookTube und BookTok Literaturvermittlung und kritik statt Dieses Buch geht diesen und noch vielen weiteren Fragen anhand einer Datenerhebung zu 131 BookTube Kan len und 115 TikTok Profilen im deutschsprachigen Raum nach Anhand der gesammelten Daten wurden die Entwicklung Wirkung und Bedeutung literaturvermittelnder und kritischer Formate auf BookTube und BookTok herausgearbeitet und der bisherige Forschungsstand berpr ft aktualisiert und erg nzt Die intensive Analyse der Systeme hat zu neuen Erkenntnissen hinsichtlich der BookTube und BookTok Demographie den Motiven der Content Produzent innen der Inszenierungs und Wertungspraxis sowie der Content Formate und ihrer Funktionen gef hrt Daneben widmet sich das Kapitel Bookabulary dem au ergew hnlichen Jargon der Buchblogger innen und bietet neben Erkl rungen f r die auff lligsten sprachlichen Ph nomene auch

Begriffsdefinitionen an *Getting To Six Figures Sustainably* Monica Leonelle, 2025-10-21 You don't need hacks, hustle or burnout to hit six figures. You need systems that actually work and that work for you. In *Getting to Six Figures Sustainably*, Monica Leonelle shares 12 of her most enduring frameworks refined over a decade of working with tens of thousands of authors that will help you build a thriving author business with clarity, ease and longevity. Inside, you'll get cliff notes versions of Monica's best and most requested ideas from across her nonfiction catalog including *The Hierarchy of Prosperous Creation*, build a career on mindset, craft, rhythm and resilience. *The Accelerator's Formula* achieve any goal faster with this powerful 6 step process. *Story Symmetry* write deeply aligned marketable books that become reader obsessions. *Author Ecosystems* discover your archetype and use it to design a business that works for you. *Funnel Flywheel* understand how readers become superfans and then spread your work. *The Fandom Flywheel* build a loyal self-sustaining reader base that sells your books for you. Plus six more systems for audience growth, visibility, branding and book virality. Whether you're just getting started or ready to scale to your next level, this book is the business oracle deck every author needs. Keep it by your side as a reference when you're stuck, stagnant or spinning and get clear, practical answers fast. It's time to stop guessing and start growing with intention, integrity and a whole lot of joy. **Digital Textualities and Spaces in ELT** Theresa

Summer, Ralf Gießler, 2025-03-31 The digital world opens up a vast number of spaces such as immersive virtual reality, digital book corners and discourses marked by hashtags. In this volume, we argue that digital spaces and textualities should play a more central role in English language teaching and learning (ELT), emphasising their multimodal and interactive nature as a means of engaging with different layers of meaning in the target language. Digital spaces function as contact zones where readers and writers communicate, negotiate experiences and shape collective identities. Within these spaces, digital textualities create opportunities for competence development across various language-related domains, fostering a critical engagement with texts. Bringing together theoretical insights, conceptual developments and case studies, this volume explores the potential of digital spaces and textualities for ELT while addressing their practical implications. *Postliterary Attention*

Theory: Reading, Fragmentation, and Meaning in the Digital Age Shaikh Afnan Birahim, 2025-09-22 *Postliterary Attention Theory: Reading, Fragmentation, and Meaning in the Digital Age* explores how our ability to read deeply has eroded in an era dominated by feeds, fragments and dopamine-driven design. Blending literary history, media theory and cognitive science, Shaikh Afnan Birahim traces the journey from modernist experimentation to TikTok snippets, showing how attention itself has become a cultural battleground. This book is both diagnosis and manifesto, an invitation to reclaim slow reading as an act of resistance and rediscover the joy, intimacy and meaning that only literature can provide. **AI Explains: TikTok** Alexis

Piani, 2025-06-01 TikTok is more than just an app on your phone; it's a global phenomenon that has fundamentally reshaped digital culture, entertainment and even politics in just a few short years. From its origins as Douyin in China in 2016, a product of ByteDance's ambitious AI-first vision, it embarked on a rapid ascent, culminating in its explosive global expansion following

the strategic acquisition and merger with Musical.ly in 2018. This wasn't just a simple integration; it instantly catapulted TikTok into the mainstream in key Western markets, providing the critical mass needed for its sophisticated recommendation algorithms to truly take hold on a global scale. We see the viral dances, the fleeting trends, and the endless stream of personalized content, but understanding how this platform achieved such unprecedented dominance and why it exerts such profound influence requires looking beneath the surface. This book delves into the intricate layers of the TikTok ecosystem, moving beyond the viral moments to explore the technological engine, corporate strategy, and societal impacts that define the platform. You'll gain insight into the powerful AI algorithms that curate the addictive For You feed, shaping everything from music charts to political discourse, and examine the complex business model that translates billions of minutes of attention into a formidable economic force. We navigate the turbulent waters of data privacy concerns, national security fears, and the intense geopolitical pressures, including the legislative actions seen in 2024 that challenge the platform's very presence in countries worldwide. Drawing on research and data, we critically assess its influence on mental health, content moderation, and its evolving role in the global information ecosystem. Whether you're a student of media or technology, a business professional navigating the digital landscape, a parent concerned about online safety, or simply someone curious about the forces shaping modern life, this book offers a comprehensive and nuanced perspective. It provides the knowledge needed to understand not just what TikTok is, but how it works, why it matters, and the complex challenges and opportunities it presents. By exploring its history, technology, culture, and controversies, you will gain a clearer picture of this powerful platform and its enduring influence on the digital age.

Collection Management Basics Margaret Zarnosky Saponaro, John Novak, G. Edward Evans, 2025-08-07. This eighth edition offers students and working professionals the tools to manage the complex process of creating appropriate collections of resources for all types of libraries. Managing collections in today's environment is a challenging process. This eighth edition of the classic text on collection management covers all aspects of the management cycle from selection through deselection and preservation. The text also includes discussions of intellectual freedom, legal issues in collection development, and collaborative collection development. Timely topics such as diversity, open access, AI, digital preservation, local history, creation spaces, and libraries of things bring this comprehensive overview up to date. Engagingly written and easy to understand, chapters rely on feedback from experts working in the field and include many sidebars with practical examples and resources. Designed primarily for students in LIS programs, the text is also a valuable resource for all library workers responsible for collection management.

Argumentation, Persuasion und Manipulation in Medientexten und -diskursen Roman Opiłowski, Hartmut E. H. Lenk, Beata Mikołajczyk, Nadine Rentel, 2025-03-10. In der massenmedialen Kommunikation begegnen wir einer unterschiedlichen Qualität und Quantität an Informationen; empfinden sie in unterschiedlichem Maße als relevant oder nebensächlich und weisen ihnen nicht zuletzt auch einen bestimmten Wahrheitswert zu. Eine solche Rezeption von Informationen findet stets an der Schnittstelle zur logischen oder nur

scheinlogischen Argumentation zur Persuasion oder auch unethischen Manipulation statt Die im Band vereinten Beitr ge befassen sich aus kontrastiver Perspektive mit allt glichen individuellen und journalistischen Online und Offline Texten und umfassen zugleich Diskursbereiche der politischen propagandistischen autoritativen genderbasierten kommerziellen pandemischen religi sen und st dtisch ffentlichen Kommunikation In mass media communication we encounter a different quality and quantity of information perceive it as relevant or irrelevant to varying degrees and not least assign it a certain truth value This reception of information always takes place at the interface of logical or merely illogical argumentation persuasion or even unethical manipulation The contributions in this volume deal with everyday individual and journalistic online and offline texts from a contrastive perspective and include discourse areas of political propagandistic authoritative gender based commercial pandemic religious and urban public communication
