Turner en France Joseph Mallord William Turner, Centre culturel du Marais, 1981 *Experience Music Experiment* William Brooks, 2021-08-19 Truth happens to an idea So wrote William James in 1907 and twenty four years later John Dewey argued that artistic experience entailed a process of doing and undergoing But what do these ideas have to do with music or with research conducted in and through music that is with artistic research In this collection of essays fourteen very different authors respond with distinct and challenging perspectives Some report on their own experiments and experiences some offer probing analyses of noteworthy practices some view historical continuities through the lens of pragmatism and artistic experiment The resulting collection yields new insights into what musicians do how they experiment and what they experience insights that arise not from doctrine but from diverse voices seeking common ground in and through experimental discourse artistic research in and of itself **F.W.
