Science Experiments Today Returns:

Returning to Scientific Practice Xu Zhu, Wu Tong, 2019-05-17 This book is a result from a collective study on philosophy of scientific practice PSP which began around 2002 and still ongoing There is an apparently increasing interest in scientific practice influenced by the historicistic philosophy of science and the sociology of scientific knowledge SSK Prof WU Tong and his research group believe that it is necessary for PSP to turn from the theory dominant position to the practice dominance PSP has also put forward the possibility of reinterpreting the epistemic status of local knowledge in Chinese tradition which provides the most significant motivation to participate this study In this book we have selected three main cases namely Chinese medicine Fengshui and Ethnobotany to examine the effect of PSP The aim of our collective study is not merely on theoretical construction of PSP but also to consider the various applications of PSP especially for re interpreting and demonstrating the variety of local knowledge from traditional China which seems to be a genuine contribution to the international enterprise of philosophy of science particularly made by Chinese scholars

Current Projects on Economic and Social Implications of Scientific Research and Development ,1965 **The 1968 Reform of Scientific Research, Development, and Innovation in the U.S.S.R.** Louvan E. Nolting, 1976 **Origins of Increasing Returns** Theodore W. Schultz, 1993-12-08 ORIGINS OF INCREASING RETURNS Nobel Laureate Theodore W Schultz has made highly important contributions to the fields of agriculture and natural resource economics and to human capital theory This is the second of two volumes which encompass and combine the passions and interests of this eminent economist Origins of Increasing Returns is mainly devoted to investments in specialized forms of capital consisting in large part of human capital that produce increasing rates The resulting tensions between politics and economics are critically examined

Research Funding as an Investment--can We Measure the Returns? ,1986 *Research funding as an investment--can we measure the returns?* United States. Congress. Office of Technology Assessment, 1986 Science & Engineering Indicators ,1996 Return Migrants in Hong Kong, Singapore and Israel Kwok-bun Chan, Wai-wan Vivien Chan, 2021-01-07 This insightful volume explores the experiences of ethnic migrants returning to Hong Kong Singapore and Israel Return migrants who were exposed to the western culture and society undergo personal transformations that significantly impact their views on values such as gender individualism democracy tradition and individual autonomy To evaluate how well these individuals are able to reintegrate back into their native countries the authors conducted a thorough comparative study between returnees in the three research sites through in depth interviews ethnographic fieldwork and analyses of government policies Among the topics discussed Family as a strategic middle ground between the individual and society The social psychology of coping and adaptation Public outer historical and macro forces that shape returnees experiences Comparisons and contrasts between two primarily Chinese societies along with one racially and culturally different Western society Cost and benefit analyses of decision making in migration Return Migrants in Hong Kong Singapore and Israel is a compelling new

perspective on the migrant experience drawn from in depth research on returnees across three countries and a variety of circumstances **1977 National Science Foundation Authorization** United States. The Z-Book On Scientific Research & Experimental Development Zafar Siddiqui CA Zak Siddiqui

B.Eng.,2011-05-18 Why should you want to read The Z Book This book is designed to give an overview of the SR ED Program of the Canadian Tax Credits Refunds System to the busy executive and the business owner manager In order to keep the Canadian businesses competitive in the present global market the Canadian government offers one of the most generous incentives to Canadian businesses to encourage them to engage in scientific research and experimental development SR ED It is also available to foreign corporations conducting SR ED in Canada It is estimated that only a very small fraction of those eligible actually apply for this credit It is also estimated that in the last fiscal year tax credits running into billions of dollars were approved including refunds to eligible businesses There is no upper limit set by the Government as to the amount of tax credits it is willing to give to eligible businesses with regard to SR ED This information might make it worthwhile for you to take the time to read this book because it talks about millions of dollars in potential tax benefits and possibly cash refunds to you and to your business over the years and in some cases even in just one year *Review of the Restructured Research and Analysis Programs of NASA's Planetary Science Division* National Academies of Sciences, Engineering, and Medicine,Division on Engineering and Physical Sciences,Space Studies Board,Committee on the Review of NASA's Planetary Science Division's Restructured Research and Analysis Program,2017-07-22 The Research and Analysis R laboratory research theoretical modeling and computational studies geological and astrobiological fieldwork in planetary analog environments on Earth geological mapping of planetary bodies analysis of data from Earth and space based telescopes and development of flight instruments and technology needed for future planetary science missions The primary role of the PSD R A program is to address NASA s strategic objective for planetary science and PSD s science goals Recently PSD reorganized the R A program to provide better alignment with the strategic goals for planetary sciences The major changes in the R A program involved consolidating a number of prior program elements many of which were organized by subdiscipline into a smaller number of thematic core research program elements Despite numerous efforts by PSD to communicate the rationale for the reorganization and articulate clearly the new processes there has been significant resistance from the planetary science community and concerns in some sectors regarding the major realignment of funding priorities Review of NASA s Planetary Science Division s Restructured Research and Analysis Programs examines the new R A program and determines if it appropriately aligns with the agency s strategic goals supports existing flight programs and enables future missions This report explores whether any specific research areas or subdisciplinary groups that are critical to NASA s strategic objectives for planetary science and PSD s science goals are not supported appropriately in the current program or have been

inadvertently disenfranchised through the reorganization

The Return of Nature John Bellamy Foster, 2020-06-16

Winner 2020 Isaac and Tamara Deutscher Memorial Prize A fascinating reinterpretation of the radical and socialist origins of ecology Twenty years ago John Bellamy Foster's Marx's Ecology Materialism and Nature introduced a new understanding of Karl Marx's revolutionary ecological materialism More than simply a study of Marx it commenced an intellectual and social history encompassing thinkers from Epicurus to Darwin who developed materialist and ecological ideas Now with The Return of Nature Socialism and Ecology Foster continues this narrative In so doing he uncovers a long history of the efforts to unite questions of social justice and environmental sustainability and helps us comprehend and counter today's unprecedented planetary emergencies The Return of Nature begins with the deaths of Darwin 1882 and Marx 1883 and moves on until the rise of the ecological age in the 1960s and 1970s Foster explores how socialist analysts and materialist scientists of various stamps first in Britain then the United States from William Morris and Frederick Engels to Joseph Needham Rachel Carson and Stephen J Gould sought to develop a dialectical naturalism rooted in a critique of capitalism In the process he delivers a far reaching and fascinating reinterpretation of the radical and socialist origins of ecology Ultimately what this book asks for is nothing short of revolution a long ecological revolution aimed at making peace with the planet while meeting collective human needs

Return to Meaning Mats Alvesson, Yiannis Gabriel, Roland Paulsen, 2017-06-23 This book argues that we are currently witnessing not merely a decline in the quality of social science research but the proliferation of meaningless research of no value to society and modest value to its authors apart from securing employment and promotion The explosion of published outputs at least in social science creates a noisy cluttered environment which makes meaningful research difficult as different voices compete to capture the limelight even briefly Older more significant contributions are easily neglected as the premium is to write and publish not read and learn The result is a widespread cynicism among academics on the value of academic research sometimes including their own Publishing comes to be seen as a game of hits and misses devoid of intrinsic meaning and value and of no wider social uses whatsoever Academics do research in order to get published not to say something socially meaningful This is what we view as the rise of nonsense in academic research which represents a serious social problem It undermines the very point of social science This problem is far from academic It affects many areas of

social and political life entailing extensive waste of resources and inflated student fees as well as costs to tax payers Part two of the book offers a range of proposals aimed at restoring meaning at the heart of social research and drawing social science back address the major problems and issues that face our societies **Japan's Changing Role** United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Asia, the Pacific, and the Global Environment,2009 *Agricultural Science Review* ,1963 *Sample Return Missions* Andrea Longobardo,2021-05-10 Sample Return Missions The Last Frontier of Solar System Exploration examines the discoveries and results obtained from sample return missions of the past present and future It analyses the results in the context of the current state of knowledge and their relation to the formation and evolution of planetary bodies as well as to the available technologies and techniques It provides detailed descriptions of experimental procedures applied to returned samples Beginning with an overview of previous missions Sample Return Missions then goes on to provide an overview of facilities throughout the world used to analyze the returned samples Finally it addresses techniques for collection transport and analysis of the samples with an additional focus on lessons learned and future perspectives Providing an in depth examination of a variety of missions with both scientific and engineering implications this book is an important resource for the planetary science community as well as the experimentalist and engineering communities Presents sample return results obtained so far in relation to remote sensing measurements methods and techniques for laboratory analysis and technology Provides an overview of a variety of sample return missions from Apollo to Hayabusa 2 to future missions Examines technological and methodological advances in analyzing returned samples as well as the resources available globally **Is Today's Science Policy Preparing Us for the Future?** United States. Congress. House. Committee on Science,1995 Aeroassist, Key to Returning from Space and the Case for AFE Louis J. Williams,1991
