Hodges,Albert N. Link,2017-10-28 This book examines knowledge intensive entrepreneurship KIE with a focus on the European textile and apparel industries The primary purpose is to review the extant academic literature related to the European textile and apparel industries and reflect on that review empirically using a new and robust database on KIE to discover patterns between human capital and strategic entrepreneurial and innovative behavior According to the Advancing Knowledge Intensive Entrepreneurship and Innovation for Economic Growth and Social Well being in Europe AEGIS project KIE is defined as an interface between knowledge generation and diffusion and the productive system Knowledge intensive entrepreneurs are thus involved in mechanisms that translate knowledge into innovation which in turn leads to economic development and growth within an industry and or region To date KIE is often associated with high tech industries such as aerospace computer engineering automotive or telecommunications For this reason few studies have been conducted that specifically examine KIE as an avenue for firm or sector growth in the textile and apparel industries However new studies have positioned these industries as ones in which KIE can foster growth through innovation and where products and processes are often evaluated within a knowledge based framework Building on this growing literature base this volume explores potential policies and strategies for driving innovation and growth at the firm and industry levels in Europe and other regions including the United States OPAC Directory 1994 Billy Barron,1994 CCRMA Report Stanford University. Center for Computer Research in Music and Acoustics,1996 **Data Base Directory** ,1994 *Professional Disobedience in Probation* Asbjørn Storgaard,2025-06-13 This book comprises an in depth and highly inclusive ethnographic study of daily life in two local Danish probation offices With a special emphasis on manual based rehabilitative interventions the book explores the interactions between probation officers and citizens on probation serving conditional sentences or performing community service as well as the professionals rationales behind their rehabilitative efforts By presenting ethnographic findings that indicate a divergence between the envisioned trust based interactions and the reality of manual

based scripted practices within the Danish probation service the analyses reveal how rehabilitative interactions may seem choreographed with roles predetermined by an asymmetric social hierarchy This framework portrays the client as inherently obstinate unpredictable and cast as an irresponsible subject Despite these challenges the book underscores probation officers genuine belief in the transformative power of motivational programs More precisely it assesses the potential for manual based or scripted rehabilitative interventions to genuinely inspire participatory citizenship among disenfranchised clients Building on these empirically informed discussions the book ultimately endeavors to provide a positive and instructive conceptualization of the diverse activities in which probation officers acknowledging the limitations of their scripted interactions with clients appear to transgress their manual based mandate and perform professional disobedience Given the broad applicability of the concept of professional disobedience extending beyond probation to other social service practices navigating the intersection of help and control this book is intended for a wide array of researchers students practitioners and policymakers with an interest in punishment disenfranchisement and rehabilitation This book is essential reading for those engaged in probation criminal justice ethnography and Nordic criminology Modem USA Lynne Motley,1992
