Rise: Living Life Over Cancer Betty Jean Aucoin, 2025-07-11 Am I going to die This is the first question Betty Jean Aucoin asks when diagnosed with recurrent stage IV breast cancer No her doctors tell her But your journey ahead will be one without a cure at this time Over the past twenty five years there has been a significant increase in the diagnosis of cancer and chronic pain Almost everyone has either been diagnosed or knows someone who has been Conventional treatment plans have primarily focused on using drugs to combat and reverse cancer and chronic pain However many of these medications come with serious side effects and do not address patients holistic needs involving the mind body heart and spirit When Betty Jean was diagnosed with breast cancer for a second time she realized she needed to explore additional options beyond her medications Determined to find a way to reverse her diagnosis she began researching a multi faceted approach to healing This is the story of her remarkable journey an engaging and informative blend of memoir and self help that emphasizes the importance of an integrative approach to cancer treatment and overall well being Topics include healthy eating exercise self care mindfulness travel and the support of family and friends Each piece of advice is made practical and personal grounded in the author s study of healing practices You can thrive while living life over cancer

Disposable Sarah Jones, 2025-02-18 In a compelling blend of personal narrative and in depth reporting New York magazine senior writer Sarah Jones exposes the harsh reality of America s racial and income inequality and the devastating impact of the pandemic on our nation s most vulnerable people In the tradition of Matthew Desmond s *Evicted* and Andrea Elliot s *Invisible Child* **Disposable** is a poignant exploration of America s underclass left vulnerable by systemic racism and capitalism Here Sarah Jones delves into the lives of the essential workers seniors and people with disabilities who were disproportionately affected by COVID 19 not due to their age or profession but because of the systemic inequality and poverty that left them exposed The pandemic served as a stark revelation of the true state of America a country where the dream of prosperity is a distant mirage for millions Jones argues that the pandemic didn t

create these dynamics but rather revealed the existing social mobility issues and wealth gap that have long plagued the nation Behind the staggering death toll are stories of lives lost injustices suffered and institutions that failed to protect their people Jones brings these stories to the forefront transforming the abstract concept of the pandemic into a deeply personal and political phenomenon She argues that America has abandoned a sacrificial underclass of millions but insists that another future is possible By addressing the pervasive issues of racial justice and public policy Jones calls for a future where no one is seen as disposable again

Mind Biases Lila Santoro, AI, 2025-05-02 Mind Biases explores the hidden ways our minds make systematic errors in judgment These cognitive biases or mental shortcuts significantly influence our choices often leading us away from rational informed decisions The book reveals how heuristics once vital for quick responses now cause predictable mistakes in areas like finance health and relationships For instance confirmation bias leads us to favor information that confirms existing beliefs while the availability heuristic makes us overestimate the importance of readily available information This book catalogs specific biases using real world examples and research from cognitive psychology and behavioral economics It uniquely synthesizes theoretical frameworks with practical applications offering a comprehensive toolkit for bias mitigation Beginning with the history of bias research the book dedicates chapters to specific biases then progresses to frameworks for identifying and managing them Ultimately Mind Biases emphasizes that awareness is the first step toward better decision making By understanding how our minds can be tricked we can develop strategies to counteract these biases improving our critical thinking and rational choices in both professional and personal life
